One-Stop Asia Execution

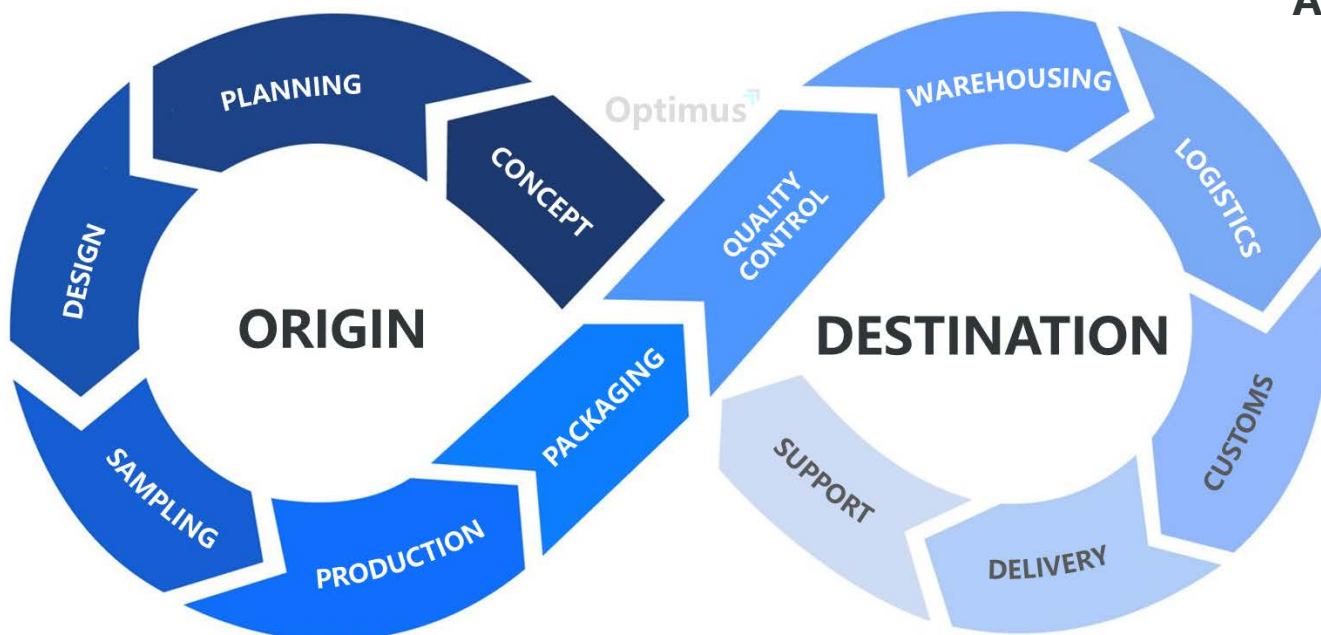

Manufacturing & Supply Solutions

We offer seamless and innovative Engineering, Manufacturing, and Supply Solutions. Total project control based on

- **Direct Industrial Asia Network**
500+ Active Verified Manufacturers
- **In-House Engineering**
20+ Industries | 7+ years serving
- **Reliable Pricing & Quality Control**
Zero Hassles Resolution

Our roadmap for successful projects

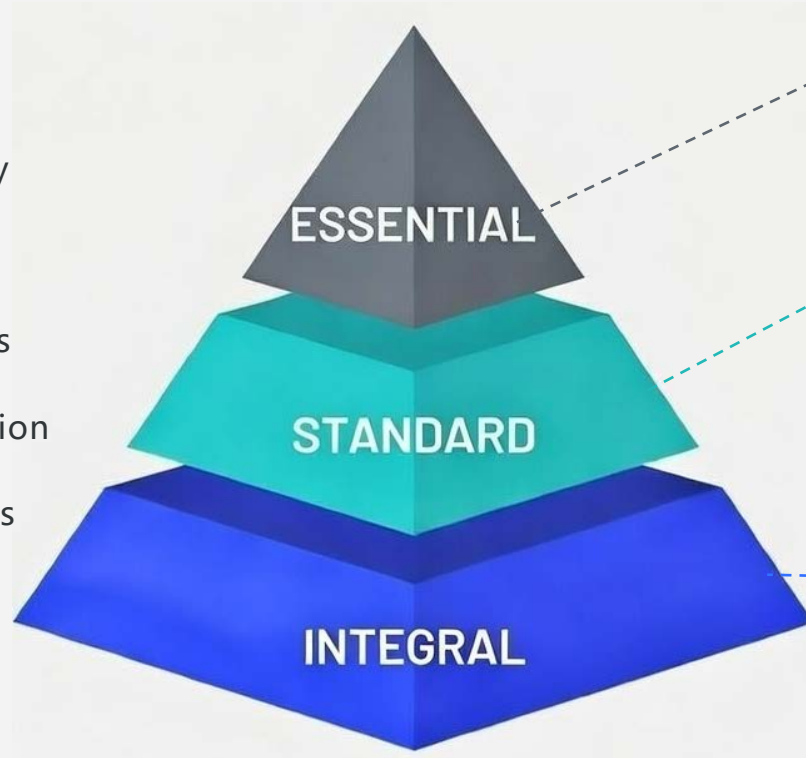

All under One roof

- Market Research
 - Strategic Sourcing
 - Design & Engineering
 - Scalable Production
 - Physical Quality Control
 - Consolidation & Logistics
- Delivery & Support

Tailored to your needs
Flexible collaboration levels

Most common risks

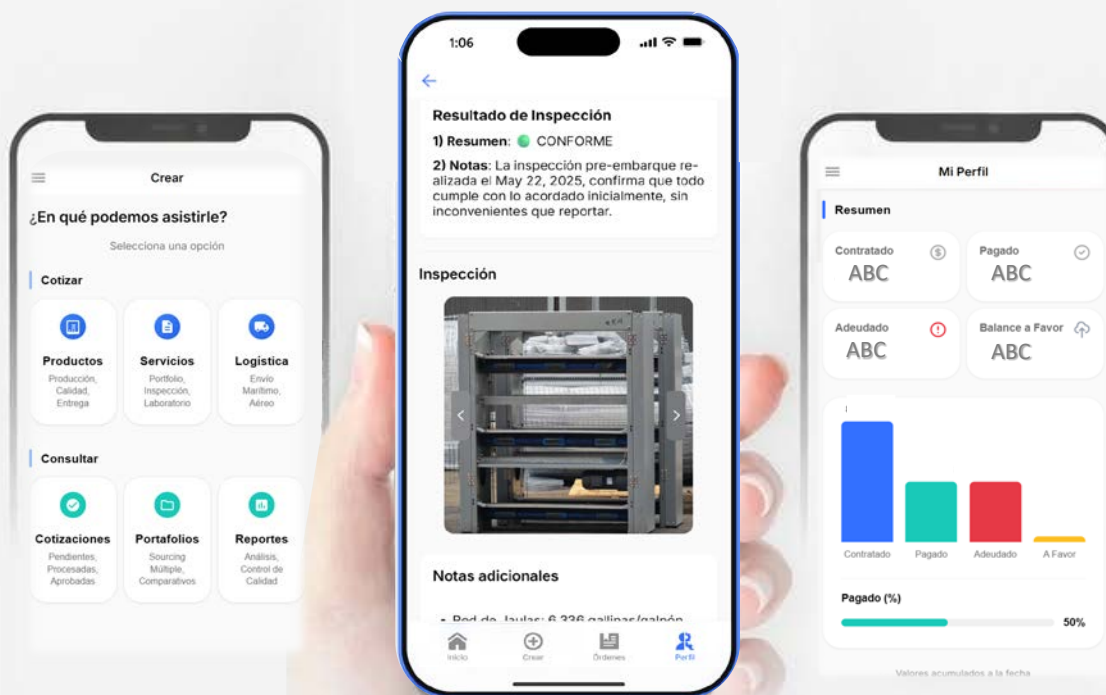

- Unpredictable Delivery
- Fragmented Sourcing
- Tough Pricing & MOQs
- Lack Materials Innovation
- Unexpected Extra Costs
- Quality Inconsistent
- Limited Support

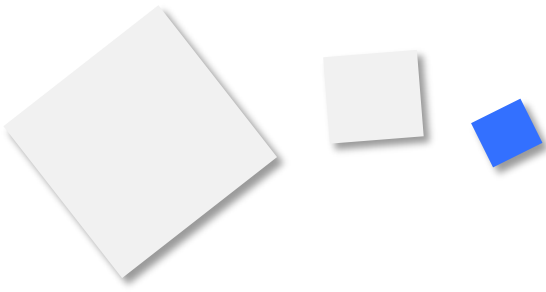

Our Solutions

- **Trucking**
Cargo Shipping
Tracking
- **Strategic Sourcing**
Factory Audit
Pre-shipment Quality Control
Materials Analysis
- **Design & Engineering**
Dedicated Manager
Prototyping & Production
Full Quality Shield
Consolidated Logistics
Risk-free execution

Optimus Pro
Digital Manufacturing and Supply

Manufacturing Capabilities

Broad range of techniques to **Customize Products**

CNC Machining

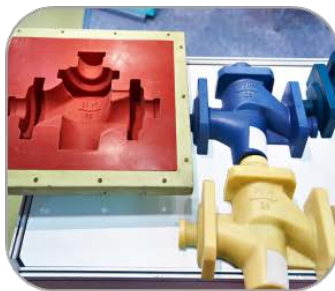

Laser Cutting

Welding

Precision Engraving

Injection Molding

Rubber Molding

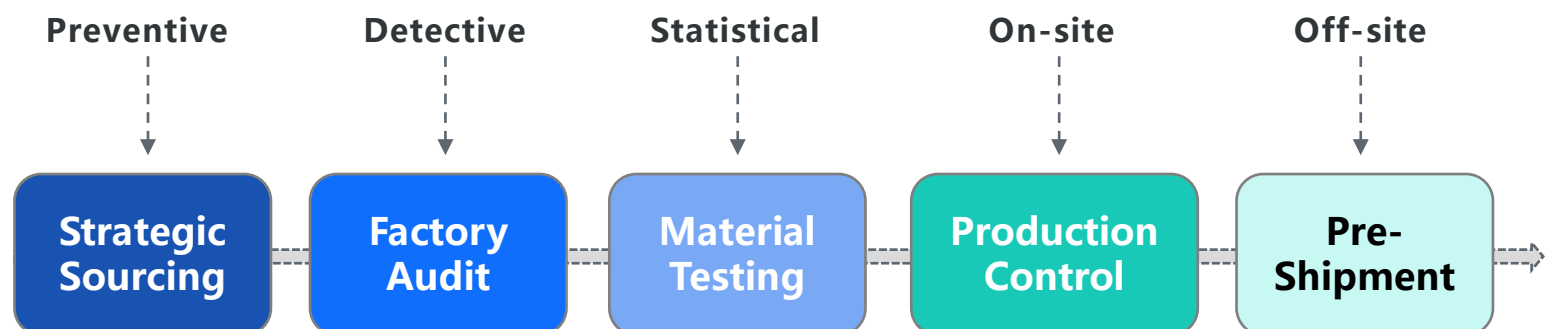

Packaging

Printing

Quality Assurance Pathway

Reduced costs and waste through **Consistent Verification**

Strategic Sourcing

Factory Audit

Material Testing

Production Control

Pre-shipment

On-Demand B2B Portfolio

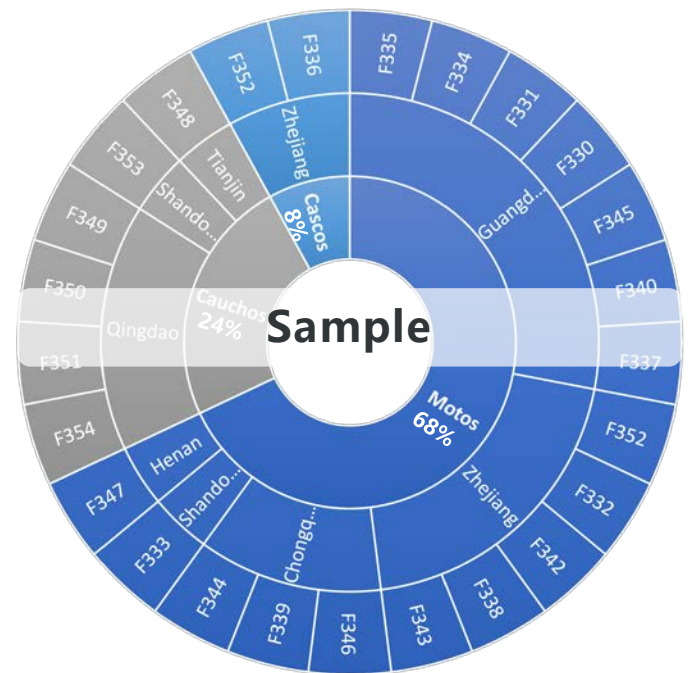

Multiple Sourcing Service

Optimus offers you a comprehensive and tailored analysis of the Chinese manufacturer market.

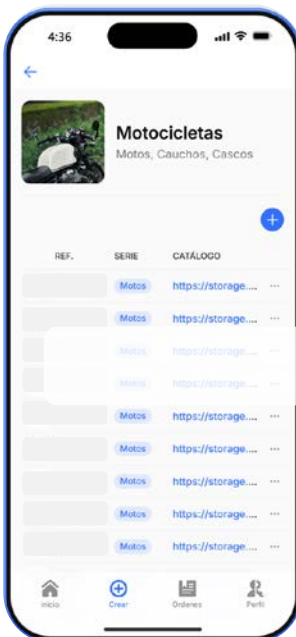

We conduct an in-depth analysis of your specific sector, select and verify manufacturers with a proven track record in the categories you're interested in.

- **B2B Verified Portfolio**
5-10-20 manufacturers
- **Direct Pricing**
Initial quotations
- **Comparative Dashboard**
Management multiple quotations

Strategic Sourcing

Factory Audit

Material Testing

Production Control

Pre-Shipment

Comprehensive On-site Inspection

Physical Inspection Service

Methodic evaluation of Chinese manufacturing facilities to verify production capability, quality systems, compliance, and operational reliability before committing to orders.

- **Full physical inspection**
Premises, equipment, warehouse, documentation
- **Detailed photo report**
Production floor, machinery, QC lab, material
- **Scorecard and recommendation**
Approve / Approve partially / Do not proceed
- **Quick turnaround**
1-3 working days to final report

Materials Testing

Testing & Certification Service

Designed to guarantee the quality, safety, and compliance of your products tailored to your requirements.

With access to internal partner laboratories and independent international laboratories (such as SGS, Veritas, and TÜV), it ensures flexibility and certainty.

- **Testing Comprehensive Management**
From sample collection to the final report
- **Network of Accredited Laboratories**
Direct access and management
- **Category of analysis**
Chemical Materials, Plastics, Rubber, Textiles, Steel, Liquids.

Efficient Test Management

Testing

- Physicochemical analysis in laboratories.
- Tests for hardness, resistance, stress, etc.

Inspections

- Physical testing at the plant
- Electrical and mechanical components

Certifications

- Test Management to meet international standards

Accredited Laboratories

Suministro Estratégico

Auditoría de Fábrica

Testing de Materiales

Production Control

Pre-shipment

Production Monitoring at Origin

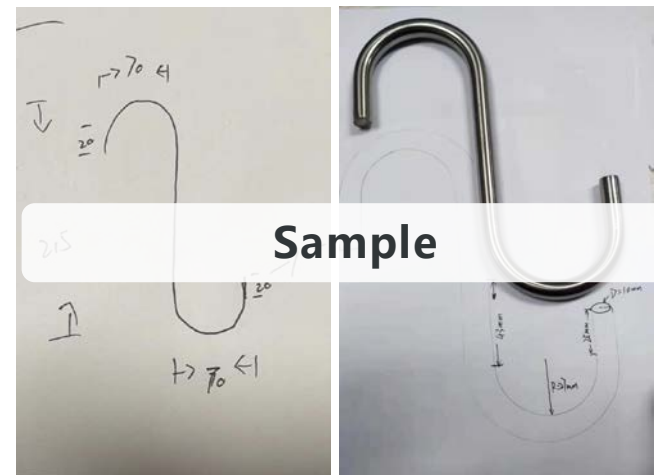

Corrective Follow-up Service

Continuous direct control during production through one or multiple manufacturers simultaneously.

Statistical verification of samples, control of critical parameters, and immediate correction of deviations are performed.

- **Physical Inspection**
Statistical Quality Level (AQL)
- **Detailed Photo Report**
Photographic and video record
- **Early Detection of Deviations**
Corrective actions, Reduce rejections
- **Comments / Observations**
