

Non-executive Director Good Food Oxfordshire

[Good Food Oxfordshire](#) is the network that aspires to promote healthy, fair and sustainable food across the whole of Oxfordshire. The limited company (GFO) that sits behind the network allows us to employ people and deliver projects to meet these aspirations.

As a non-executive Director of GFO you would have the chance to work with the existing experienced Board, as well as getting involved more directly in some of the projects.

If you have a passion for wanting to improve food-related health, fairness and sustainability in our county, then this could be the role for you, whether you have previous Board experience or not.

We are very keen to gain new perspectives and experience, so welcoming people from diverse backgrounds to our Board is a high priority for us, and we have funds to compensate you for your time, if needed.

If you have a particular background in marketing, communications or HR, then please highlight this in your application. If it's your passion that is leading you, then just focus on that.

The Directors meet formally 6-7 times a year, either in person or online. You also do have the opportunity to be involved in specific projects, which we would encourage you to do.

You can read more about GFO's aims and values in our [Charter](#).

If you are interested in becoming a Director of GFO, please contact our Chair at bart.ashton@lmh.ox.ac.uk for an informal discussion or email him your CV and covering letter setting out what you can bring to the role, why you'd like to be involved and what you would hope to get out of your involvement. Please also complete and return our [confidential equal opportunities monitoring form](#).
