experience

digital designer & frontend developer

enCOMPASS ADVERTISING AGENCY

june 2016 – present

frontend developer and designer for custom websites and template creation.

Build, modify and maintain all LESS style sheets, including three custom frontend frameworks built to use in Joomla.

Built a reusable, modular frontend framework for a shopping cart using the Hikashop extension in Joomla.

All things digital design including icon, logo, and web design, html5 banner ads, and responsive email development and design.

art educator, k-11th grade

LINCOLN CHARTER SCHOOL

march 2014 – june 2016

Head of the art department at the Lincoln campus, and created all lesson plans following state standards.

Created a community art mural at the Lincoln County Regional Airport by organizing a full-campus event for submissions, and after-school program.

education

tech talent south

JAVASCRIPT APPLICATION

october 2018 – december 2018

school museum of fine arts, boston & tufts university

BACHELOR OF FINE ARTS

september 2009 – may 2012

“the higher the mountain,
the better the view.”

I love to learn and challenge myself daily, to push my creativity, and to gain new skills. I am always looking for ways to improve processes in design and development.
