

Three-Layer Blown Film Plant by Finetech Engineers: Durable,

Finetech Engineers presents a three-layer blown film plant engineered for high-efficiency plastic film production with precision controls and reliable performance. This brochure highlights robust construction, tight layer alignment, and consistent output, ensuring durability and cost-effective operation across demanding manufacturing environments. Experience streamlined setup, precise film gauges, and dependable throughput designed to meet evolving packaging needs while minimizing downtime and maintenance. Quality materials, smart process automation, and expert after-sales support accompany every installation for long-term value.

Company Name - Finetech Engineers

2, ABM Society, Nr. Santosh Starch, Stovec Industries road, N.I.D.C Lambha Village, Narol, Ahmedabad, Gujarat, India
