Rain water Harvesting policy

Rainwater harvesting policies are designed to promote the collection, storage, and use of rainwater as a sustainable water management practice. The fundamental goal of rainwater harvesting is to conserve freshwater resources by capturing and storing rainwater for various non-potable uses. Some action taken by the the institute.

Action taken:

1. The rainwater from the roof top of various department is collected by menas of closed conduit and disposed in open drain.
2. The rainwater collected from block -E collected separately and disposal in haewasting pit for ground water recharge.
3. The rainwater collected in open drain nalla disposed in near by college presmise for regarge of ground water table.
