PROFESSIONAL SUMMARY

Full-Stack Developer with 1+ year of hands-on experience building responsive, high-performance, SEO-optimized web applications across the MERN stack and Next.js. I've shipped 15+ production websites and apps for SMEs, NGOs, and startups — translating designs into clean, scalable code, integrating REST and GraphQL APIs, and improving load times by up to 40%. Currently open to new opportunities and collaborations.

CORE TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript, TypeScript
- **Frameworks & Libraries:** React, Next.js, Tailwind CSS, Bootstrap, Node.js, Express.js, GraphQL, REST APIs
- **Databases & Backend:** MongoDB, Firebase
- **Tools & CMS:** VS Code, WordPress, Git, Vercel, GitHub, WooCommerce
- **Design:** Figma

PROFESSIONAL EXPERIENCE

Frontend Developer

Semester Technologies (Remote) || Feb 2025 – Present

Building and shipping responsive, performant web apps for clients in a fast-paced remote team.

- Developed and deployed 10+ responsive web applications, improving user engagement by 20%.
- Translated UI/UX designs into reusable React + Tailwind components.
- Reduced page load time by 40% and improved Lighthouse scores from 65 to 90+.
- Ensured cross-browser and cross-device compatibility across Chrome, Firefox, Safari, Edge.
- Collaborated in Agile sprints, delivering features up to 2 weeks ahead of deadline.

Fullstack Developer (Trainee)

SQL College of ICT (Nigeria) || Jul 2025 – Mar 2026

Project-based training expanding into full-stack with the MERN stack and modern Next.js workflows.

- Expanding expertise in React, Node.js, Express, MongoDB, and Tailwind CSS.
- Building dynamic full-stack applications with scalable frontend-backend integration.
- Applying Agile methodologies to real-world team development.

WordPress Developer

Floxy VBA (Remote) || Dec 2022 – Feb 2024

Built and maintained WordPress sites for SMEs, NGOs, and e-commerce businesses.

- Designed, developed, and maintained 15+ WordPress sites with 95% client satisfaction.
- Customized themes and plugins to meet branding and functional needs.
- Implemented SEO best practices, increasing organic traffic by ~30% on average.
- Integrated WooCommerce + payment gateways, supporting 50+ monthly transactions.
- Wrote user guides + technical docs, reducing post-launch support requests by 25%.

KEY PROJECTS

FanMid Commerce

Technologies: Next.js 15, TypeScript, GraphQL, Apollo Server, MongoDB, Tailwind CSS, Paystack

Live Demo: <https://fanmidcommerce.vercel.app/>

- Built a full-stack fashion e-commerce platform across four categories (Tops, Bottoms, Outerwear,

Accessories) with 2,000+ curated products. Implemented a GraphQL API with Apollo Server for flexible data querying, JWT-based authentication, and a full admin panel for inventory and order management. Integrated Paystack for secure checkout, added dark/light mode theming, and used Next.js App Router for SSR and optimized performance. MongoDB powers persistence.

Abeokuta Gospel Competition (AGC)

Technologies: Next.js, TypeScript, Tailwind CSS, MongoDB

Live Demo: <https://agc-mauve.vercel.app/>

- Built a real-time gospel talent show voting platform for Abeokuta, Season 1, featuring contestant profiles, a live leaderboard, and a countdown timer for active voting stages. Implemented an admin panel for stage management, contestant registration, and vote tracking, with MongoDB for persistent data storage. Designed a responsive, engaging UI with Tailwind CSS optimized for community event audiences on both mobile and desktop.

FanMid Consult

Technologies: React, Tailwind CSS, Express.js, REST

Live Demo: <https://fanmidconsult.vercel.app/>

- Developed a professional consulting platform with a React frontend and Express.js backend, featuring service listings, consultation booking, and contact workflows. Styled with Tailwind CSS for a modern, fully responsive UI across desktop and mobile. Built RESTful API endpoints with Express.js to handle form submissions, service inquiries, and client data management.

Branmart Online Marketplace

Technologies: React, HTML5, Bootstrap

Live Demo: <https://branmart.vercel.app/>

- Developed a modern e-commerce frontend using React, featuring structured product listings and intuitive navigation. Built reusable, responsive UI components optimized for mobile, tablet, and desktop. Implemented interactive shopping cart functionality with real-time updates, robust form validation, and search/filter features. Delivered a scalable frontend architecture optimized for performance and future backend integrations.

Book E-Commerce Platform

Technologies: HTML5, Bootstrap, JavaScript, Firebase

Live Demo: <https://uniquebooks-bc7cb.web.app>

- Built a full-featured online bookstore with user authentication, secure checkout, and real-time cart updates. Implemented dynamic product listings, filtering, and search functionality, and integrated Firebase Authentication, Firestore, and Hosting for backend services. Designed reusable UI components for consistency and scalability, with strong cross-browser compatibility and clean validation throughout.

EDUCATION

Moshood Abiola Polytechnic, Ojere || 2019 – 2024

Higher National Diploma (HND), Electrical & Electronics Engineering (Telecommunications)
Ojere, Ogun State

Ifelodun Comprehensive High School || 2012 – 2018

Senior Secondary School Certificate (SSCE)

CERTIFICATIONS

- WordPress Developer || Whogohost || 2023
