PERSONAL PROJECTS

NodeJs Starter Code (10/2018 – Present) ✨

- NodeJs Starter Code for building API's. A boilerplate for NodeJs web applications API's. It includes api routes for auth where you can easily start with login and register with nodejs and mongoDb(Mongoose) as fast as possible. You can easily expand this project with a proper folder structure which is properly organised in an easy and understandable manner.

DevConnect-Chat (02/2018 – 06/2018)
