

STRATEGIC CONTROL

DASHBOARD ASSOCIATE

# Track Your Agentic ROI

## THE HIDDEN COST OF INEFFICIENCY

You cannot manage what you cannot measure. Operations leaders often lack the real-time visibility, agility, and governance required to steer a growing agency. Relying on disjointed spreadsheets or lagging indicators means you are making critical capacity decisions in the dark.

## YOUR DIGITAL WORKFORCE

**The Dashboard Associate:** Indemn empowers Carriers, MGAs, Brokers, and Agencies to scale capacity. We deliver Strategic Control by deploying the Dashboard Associate, giving your leadership team immediate access to the metrics that matter most.

## AGENTIC BUSINESS RESULTS (ABR) DELIVERED

- **Performance Dashboard:** Dashboard Associate provides granular ROI visibility.
- **Operational Governance:** Provides operations leaders with visibility, agility, and governance.
- **Transparent Value:** Captures value based on the actual economic output generated, rather than relying on per-seat licenses.

# PROVEN ARCHITECTURE, ABSOLUTE CONTROL

## COMPLIANCE BY DESIGN

### The Human-in-the-loop Differentiator:

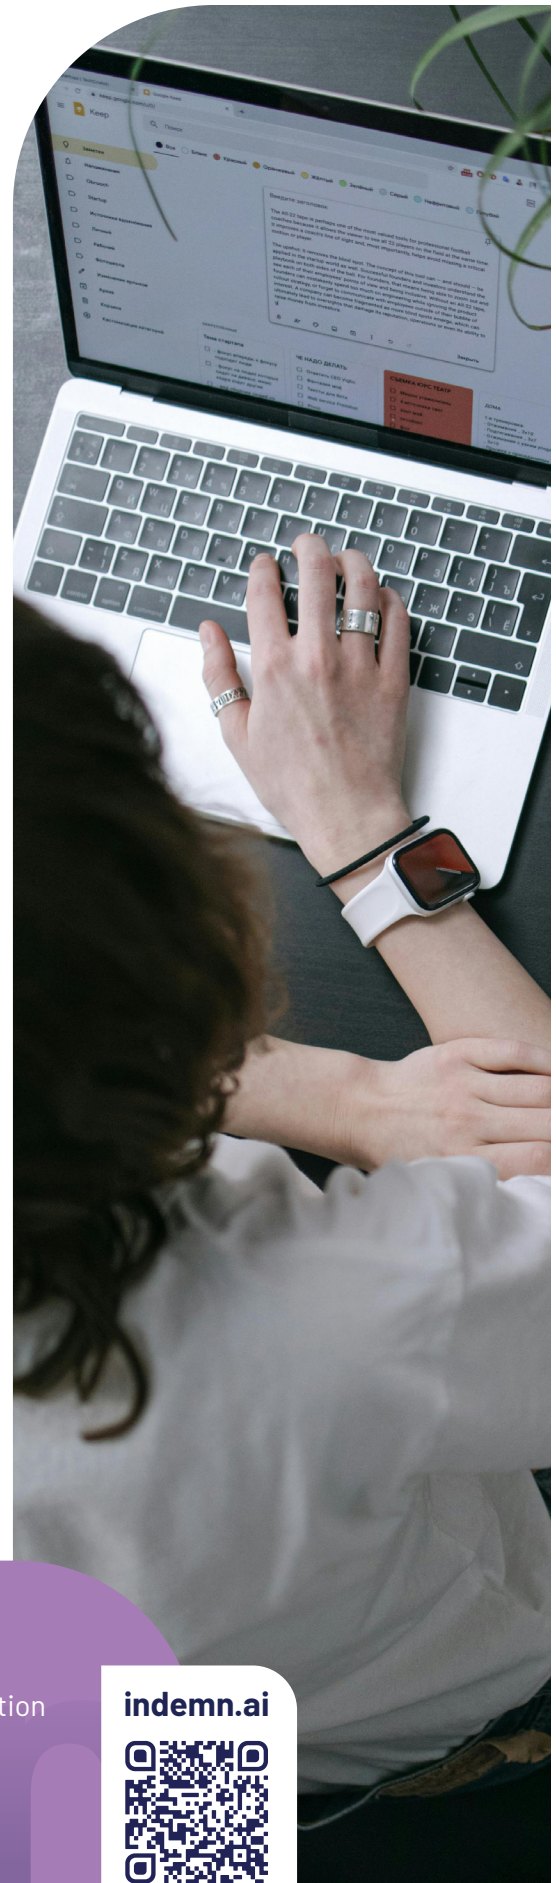

Our human-in-the-loop architecture actively enforces moment-by-moment integrity and NAIC AI Model Bulletin compliance. When ambiguous, the AI queues a response for human review, providing a transparent trail of decision-making.

## INCONTROVERTIBLE MARKET VALIDATION

We approach the market with incontrovertible market validation: the successful creation, scaling, and sale of our fully digital MGA, Eventuguard. During its operation, our AI Associates successfully completed over 90% of policy sales transactions from quote to bind entirely without human intervention. This structurally de-risks our offering for institutional partners.

## TECHNICAL VALIDATORS

- **Rapid Time-to-Value:** Production-ready in ~60 days.
- **Insurance-Native Architecture:** Understands binding authority and surplus lines out of the box.
- **API-First Integration:** Integrates with AMS/PAS (Guidewire, Vertafore) without breaking stacks.
- **No-Code Control:** Strategy Studio empowers operations teams to update rules without IT support.
