

STRATEGIC CONTROL

STRATEGY STUDIO

Customize Your Agency Brand Voice

THE HIDDEN COST OF INEFFICIENCY

“Bots” are cheap and dumb. If your automation sounds like a generic tool sitting in a box, it actively damages the high-trust client relationships you have worked so hard to build.

YOUR DIGITAL CAPABILITY

Strategy Studio: We do not sell horizontal platforms; we sell an insurance-native digital workforce. We empower your agency to take total control over how your AI Associates interact with the world by utilizing Strategy Studio.

AGENTIC BUSINESS RESULTS (ABR) DELIVERED

- **Tone & Brand Customization:** Allows your agency to train and refine the specific voice and tone of your digital workforce.
- **Immediate Agility:** Strategy Studio empowers managers to update rules in days without IT.
- **Relationship Protection:** Ensures your Associates are valuable team members that drive business results while sounding like an authentic extension of your brand.

PROVEN ARCHITECTURE, ABSOLUTE CONTROL

COMPLIANCE BY DESIGN

The Human-in-the-loop Differentiator:

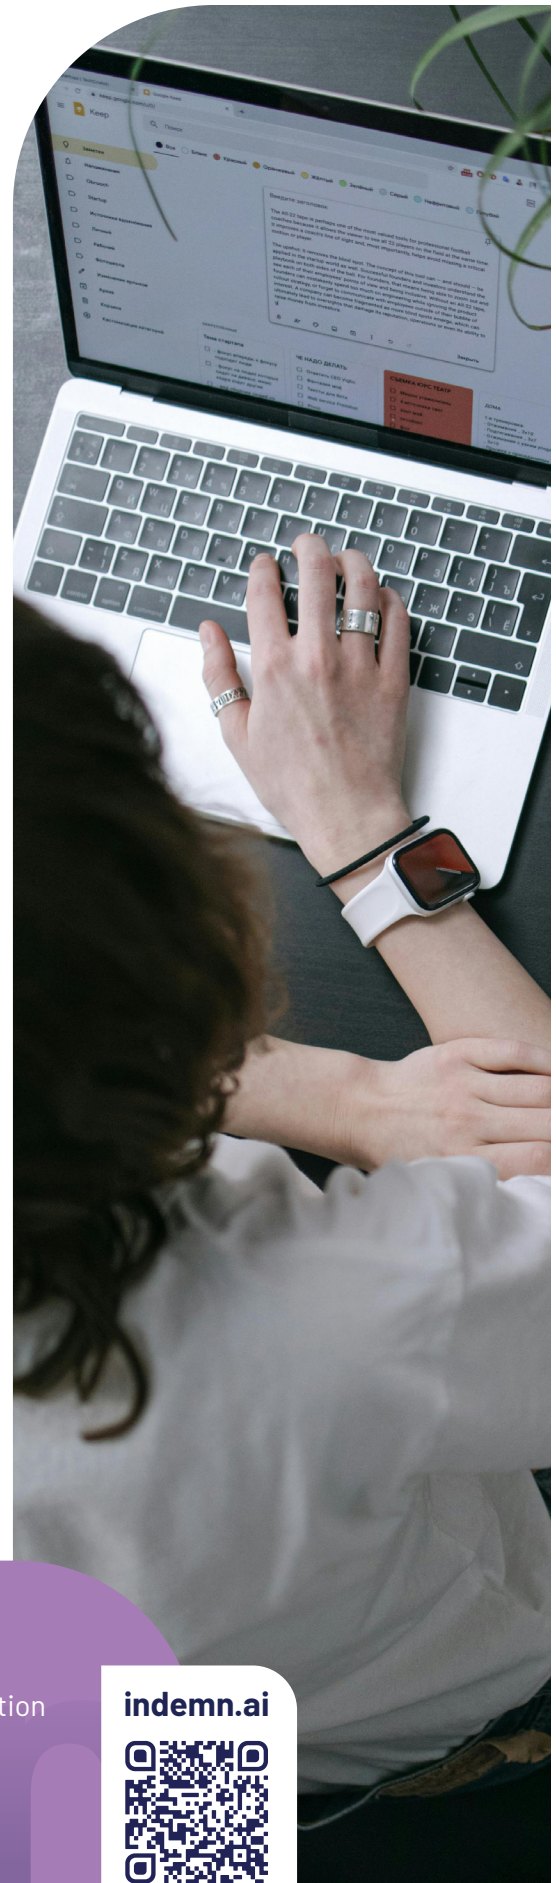

Our human-in-the-loop architecture actively enforces moment-by-moment integrity and NAIC AI Model Bulletin compliance. When ambiguous, the AI queues a response for human review, providing a transparent trail of decision-making.

INCONTROVERTIBLE MARKET VALIDATION

We approach the market with incontrovertible market validation: the successful creation, scaling, and sale of our fully digital MGA, Eventuguard. During its operation, our AI Associates successfully completed over 90% of policy sales transactions from quote to bind entirely without human intervention. This structurally de-risks our offering for institutional partners.

TECHNICAL VALIDATORS

- **Rapid Time-to-Value:** Production-ready in ~60 days.
- **Insurance-Native Architecture:** Understands binding authority and surplus lines out of the box.
- **API-First Integration:** Integrates with AMS/PAS (Guidewire, Vertafore) without breaking stacks.
- **No-Code Control:** Strategy Studio empowers operations teams to update rules without IT support.
