

STRATEGIC CONTROL

STRATEGY STUDIO

Total Program Control

THE HIDDEN COST OF INEFFICIENCY

When updating carrier rules, adjusting rates, or launching new products requires months of expensive IT queuing, your go-to-market speed is crippled. Operations leaders who lack immediate agility cannot effectively compete in dynamic markets.

YOUR DIGITAL CAPABILITY

Strategy Studio: We sell an insurance-native digital capability, not just a horizontal tool. Strategy Studio is your No-Code Program Builder, ensuring your organization can adapt and scale revenue independently of IT bottlenecks.

AGENTIC BUSINESS RESULTS (ABR) DELIVERED

- **Centralized Governance:** Facilitates the central updating of eligibility rules, commission structures, and appetite guardrails.
- **Immediate Deployment:** Empowers business leaders to implement structural changes to AI Associates in days rather than months.
- **Operational Agility:** Provides total visibility and control over how your digital workforce interacts with the market.

PROVEN ARCHITECTURE, ABSOLUTE CONTROL

COMPLIANCE BY DESIGN

The Human-in-the-loop Differentiator:

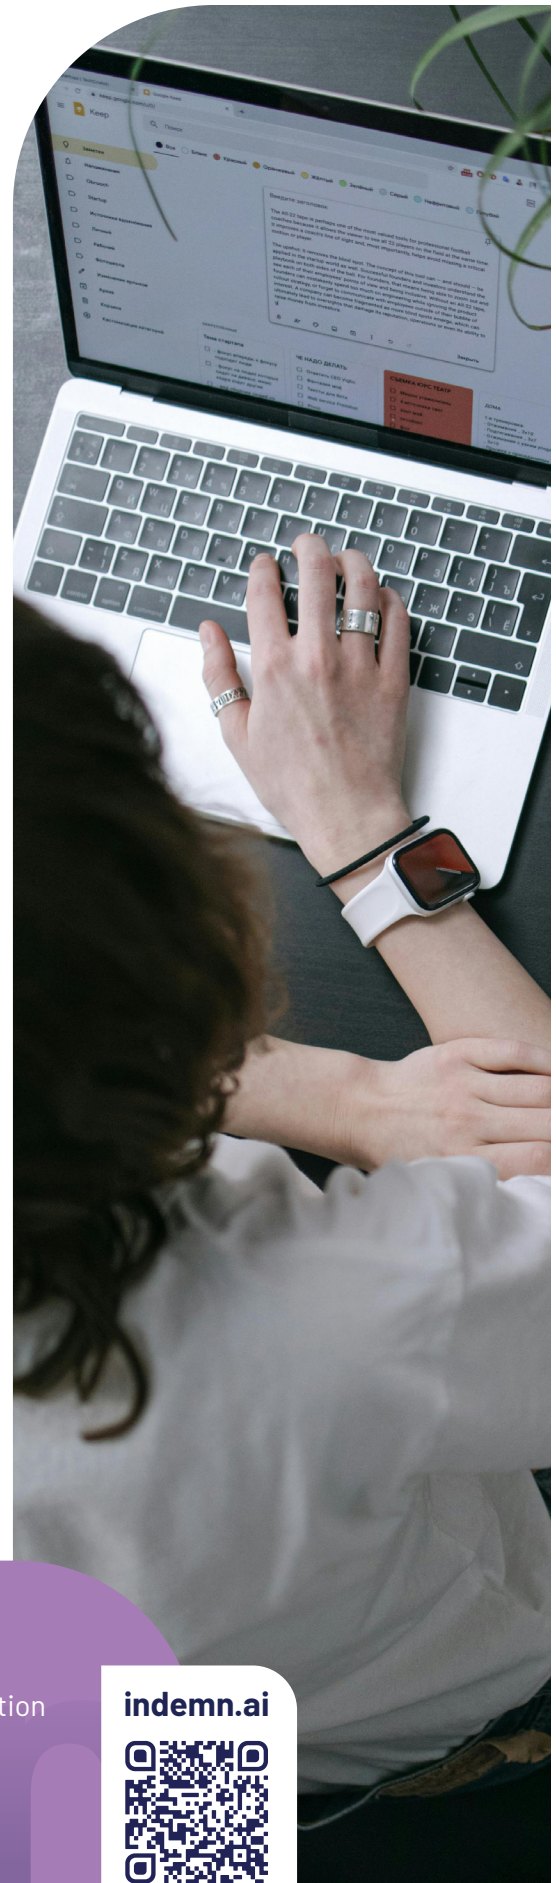

Our human-in-the-loop architecture actively enforces moment-by-moment integrity and NAIC AI Model Bulletin compliance. When ambiguous, the AI queues a response for human review, providing a transparent trail of decision-making.

INCONTROVERTIBLE MARKET VALIDATION

We approach the market with incontrovertible market validation: the successful creation, scaling, and sale of our fully digital MGA, Eventuguard. During its operation, our AI Associates successfully completed over 90% of policy sales transactions from quote to bind entirely without human intervention. This divestiture structurally de-risks our offering for institutional partners.

TECHNICAL VALIDATORS

- **Rapid Time-to-Value:** Production-ready in ~60 days.
- **Insurance-Native Architecture:** Understands binding authority and surplus lines out of the box.
- **API-First Integration:** Integrates with AMS/PAS (Guidewire, Vertafore) without breaking stacks.
- **No-Code Control:** Strategy Studio empowers operations teams to update rules without IT support.
