

B.Des in Interior Design Duration – 4 Years (8 Semesters)

Semester 1

- English writing skills
- Environmental science
- Book keeping for accounts
- Materials Study & Survey
- Basics of Structures
- Fundamentals of Design
- Drawing & Representation Techniques-I

Semester 2

- English conversational skills
- IT skills - II
- Logical reasoning and Data interpretation
- Research & Design Process
- Materials & Construction Methods
- Design Project
- Drawing & Representation Techniques II

Semester 3

- Gandhian thought
- Tourism
- Fundamentals of entrepreneurship
- Interior Drawing & Representation-II
- Interior Materials & Services-II
- Design history
- Design studio – I

Semester 4

- Rajasthan tourism
- Sales and marketing management
- Entrepreneurial sales and marketing
- Interior drawing and representation - II
- Internship
- Design Studio - II

Semester 5

- Business Communication & Professional Ethics
- Financial Literacy & Project Budgeting
- Event & Exhibition Management
- Fashion Photography & CAD Tools & Draping and explorations
- Advance Pattern Making, Garment Construction & Draping
- Fashion Production, Marketing and Merchandising
- Fashion Project IV

Semester 6

- Client Psychology & Consumer Behaviour
- Sustainable Practices & Green Design Awareness
- Portfolio Development & Interview Skills
- Traditional Textile Craft & Visual Merchandising & Social Media
- Professional Practice & Portfolio Development -1
- Internship
- Fashion Project V

Semester 7

- Innovative Design Intervention & Craft Research & Creative Pattern making
- Men's Wear Inputs & Kids wear Inputs & Creative Garment Construction
- Entrepreneurship, Branding and Business
- Research Project
- Fashion Project VI

Semester 8

- Professional Practice & Portfolio Development -2
- Graduation Design Project
- Graduation Design Project Report

B.Voc in Interior Design Duration – 3 Years (6 Semesters)

Semester 1

- Fundamentals of Interior Design
- History of Interior Design
- Design Communication and Presentation
- Space Planning and Layout Design - Practical
- Basic Drafting and Design Tools
- Colour Theory and Application
- Project I

Semester 2

- Design and Human Factors
- Lighting Design
- Furniture Design and Arrangement
- Space Planning and Layout Design – Practical
- Textile and Colour Application – Practical
- Lighting Design and Implementation – Practical
- Project Work II

Semester 3

- Interior Design Project Management
- Architectural Detailing and Construction
- Design for Special Needs
- Advanced 3D Modelling and Visualization – Practical
- Sustainable Design Practices – Practical
- Residential Design – Practical
- Project III

Semester 4

- Interior Design Theory and Practice
- Design for Commercial and Institutional Spaces
- Advanced Lighting Design
- Commercial Interior Design – Practical
- Ergonomics and Human Factors in Design – Practical
- Advanced Materials and Finishes – Practical
- Project IV

Semester 5

- Sustainable Interior Design
- Advanced Design Theory
- Interior Design for Healthcare Environments
- Historical and Cultural Influences in Interior Design – Practical
- Project Management in Interior Design – Practical
- Digital Presentation Techniques – Practical
- Project V

Semester 6

- Interior Design Management and Practice
- Advanced Interior Design Theory
- Design for Hospitality and Commercial Spaces
- Design for Hospitality and Commercial Spaces – Practical
- Design Innovation and Trends – Practical
- Professional Practice and Portfolio Development – Practical
- Project VI

2 Year Diploma in Interior Design Duration – 2 Years (4 Semesters)

Semester 1

- Fundamentals of Interior Design
- History of Interior Design
- Design Communication and Presentation
- Space Planning and Layout Design - Practical
- Basic Drafting and Design Tools
- Colour Theory and Application
- Project I

Semester 2

- Design and Human Factors
- Lighting Design
- Furniture Design and Arrangement
- Space Planning and Layout Design – Practical
- Textile and Colour Application – Practical
- Lighting Design and Implementation – Practical
- Project Work II

Semester 3

- Interior Design Project Management
- Architectural Detailing and Construction
- Design for Special Needs
- Advanced 3D Modelling and Visualization – Practical
- Sustainable Design Practices – Practical
- Residential Design – Practical
- Project III

Semester 4

- Interior Design Theory and Practice
- Design for Commercial and Institutional Spaces
- Advanced Lighting Design
- Commercial Interior Design – Practical
- Ergonomics and Human Factors in Design – Practical
- Advanced Materials and Finishes – Practical
- Project – 4

1 year diploma in interior design

Semester 1

- Communicative Skill
- Introduction to Interior Design
- Elements & Principles of Design
- Basics of Architecture & Building Construction
- Basics of Architecture & Building Construction

Semester 2

- Freehand Sketching & Perspective Drawing
- Furniture Design & Ergonomics
- Digital Tools: AutoCAD for Interior Designers
- Lighting Design & Artificial Illumination Techniques
- Practical
