

GENTLE

LOW-NOISE

roeko VacuSoft

The cannula for greater comfort during aspiration

vacusoft.coltene.com

 **COLTENE**

Gentle and low-noise aspiration

Aspiration cannula distinguished by exceptional comfort, flexibility and silence!

- Soft tips provide gentle contact with the oral mucosa
- Low-noise aspiration without reflux
- Flexible adjustment to the treatment situation

Soft exchangeable tips ensure gentle contact with the oral mucosa. The extra soft **sensitive comfort** tip is particularly gentle.

GENTLE

The special conical geometry of the tips optimises flow, thus reducing noise levels. At the same time, it prevents the gravity-induced reflux of aspirated media into the patient's mouth.

LOW-NOISE

Responding to the needs of special patient groups with VacuSoft

Patients with dementia

Use low-irritation treatment methods

Cancer patients

Protect sensitive oral mucosa

Paediatric dentistry

Reduce foreign body sensation and pressure

VacuSoft Base

Durable and reusable cannula tube with matt surface.

The tube is designed according to ergonomic aspects:

Specially flattened areas provide orientation when holding and increase grip, even when wearing gloves

The slightly angled geometry allows the cannula to lie comfortably in the hand and assists guiding.

Autoclavable

VacuSoft Tip

Cannula tip for attachment to the VacuSoft base.

VacuSoft tips are made of soft TPE plastic and are therefore particularly gentle in contact with the patient's oral mucosa, tongue and cheeks. The wide and flat cannula tip is ideally suited for keeping the patient's cheeks and tongue away and ensuring a clear view of the treatment field. Different degrees of hardness of the colour-coded tips provide flexibility in aspiration and allow for individual treatment situations.

Not autoclavable

sensitive comfort

Very soft tip for gentle aspiration in particularly (pressure-) sensitive patients

comfort

Soft tip for gentle aspiration in uncomplicated treatment cases

solid comfort

Stable tip for aspiration situations where more resistance is needed for retraction

Order Information

VacuSoft Starter Kit

- 60023549** 2 × VacuSoft Base
5 × VacuSoft Tip sensitive comfort
