Experience Cube  
und Cube X:

# SYSTEMATIC STERILISATION

Innovative, efficient and all from one single source: As a key component of the integrated 360PRO system, Cube and Cube X small sterilisers guarantee the safe and reliable reprocessing of dental instruments in the shortest of times. Surgeries of all sizes profit from time and cost savings as not only instrument reprocessing but also the entire administrative effort involved is optimised.

**360** PRO

## GREATER SAFETY AND EFFICIENCY

Thanks to shorter cycles, innovative drying technology and an intuitive user interface, both Cube and Cube X meet the highest of standards with respect to safety, user-friendliness and the economics of everyday use. Both models are compelling propositions in terms of their perfect drying, their colour touch display for simplicity of use and the ease with which they integrate into existing IT systems.

Whether small practice or large clinic: Miele offers two models, each with a different chamber size, to do justice to the varying requirements of dental surgeries and hospitals. Whilst the Cube performance model features all the functionalities needed for fast and reliable sterilisation in modern practices, the Cube X premium model offers many additional innovative extras to ensure efficient instrument reprocessing at the highest of levels, both from a technical and economical viewpoint.

# CUBE PERFORMANCE MODEL

## FOR EFFICIENT INSTRUMENT REPROCESSING

Simple, reliable and efficient: Cube convinces with its short cycles, optimum drying results and low consumption. The compact steriliser offers many useful functions for efficient sterilisation processes, is available in two chamber sizes (17 l and 22 l) and optimises the entire instrument cycle as an integrated part of a systematic approach in small to medium-size practices.

- User-friendly operation thanks to colour touch screen
- Practical programme settings such as programmable starting times
- User convenience thanks to ergonomic design
- Flexible water supply: Automatic by connecting to a water pre-treatment system or manually via water tank
- Capacity: up to 5 trays (3 trays, convertible tray rack and tray holder included)
- Process documentation via USB or optionally via WiFi or DataDiary Cube

# POWERFUL FOR SMALL AND LARGE PRACTICES

# PREMIUM CUBE X MODEL

## EXCEEDS EVEN THE HIGHEST OF QUALITY EXPECTATIONS

Innovative, fast, safe: Thanks to its short cycles, ultra-modern drying technology, a simple interface and programmable starting times, the Cube X premium model simplifies processes in larger surgeries and clinics. The machine is available in two chamber sizes (17 l and 22 l), features advanced network technology and also offers many extra features guaranteeing greater convenience and economy in everyday business.

- Shorter drying times thanks to EcoDry technology.
- S-Fast cycle for handpieces and contra-angles for rapid sterilisation lasting as little as 13 minutes
- Individual user management catering for multiple users
- 3D animations in display provide modern maintenance support
- User-friendly operation thanks to colour touch screen
- Practical programme settings such as programmable starting times
- User convenience thanks to ergonomic design
- Flexible water supply: Automatic by connecting to a water pre-treatment system or manually via water tank
- Capacity: up to 5 trays (5 trays, convertible tray rack and tray holder included)
- Process documentation via USB, Ethernet or optionally via WiFi or DataDiary Cube

# QUALITY AND SAFETY

Reliable sterilisation of instruments

## Reliable programme selection

### Individual sterilisation cycles

Safe instrument reprocessing with standard B-class cycles, an S-class cycle for the fast sterilisation of unwrapped handpieces and contra-angles (depending on model) and relevant test programmes such as a vacuum test.

## Practical programme settings

### Individual flexibility

Valuable cost and time savings in everyday surgery life thanks to customisable programme settings, e.g. pre-selected programme starts

## Comprehensive process documentation

### Secure data transmission

Simple traceability thanks to automatic saving of cycle reports to a USB flash memory or to a computer via DataDiary. Simple and uncomplicated printing of barcode labels using the Miele APH 550 Seggo label printer.

## Individual user identification

### Digital identification

If required, the users checking and approving Cube X sterilisation cycles can be registered digitally. The name of the operator can be saved together with approvals.

## Low running costs

### Long maintenance intervals

Maintenance is only required every 5 years or at the latest after 4000 cycles.

# EFFICIENT AND CONVENIENT

Greater economy in everyday work

## Optimised cycle times

### EcoDry technology

The Cube X boasts cycles which are shorter, guarantees greater instrument longevity and compelling energy savings. With patented EcoDry technology, drying times are adjusted to load sizes.

## Compact dimensions

### Ergonomic design

The ergonomic design of the machines ensures additional convenience. Thanks to their compact size, these machines integrate well into all types of practices and surgeries.

## Easy operation

### Intuitive colour touch display

The large colour touch display and an intuitive menu structure makes daily work in a surgery simpler, faster and more efficient.

## Simple data transfer

### WiFi dongle key

Optionally, communication via WiFi is an alternative. This allows data to be ported simply to other software systems.

## High-level user convenience

### Automatic water fill valve

Alongside the simple charging of the water tank, these machines are easy to connect to the Miele Plug & Pure water treatment system. Alternatively, a small steriliser can be connected together with a Miele thermal disinfectant to a larger full demineralisation cartridge.

GREATER EFFICIENCY

IN EVERYDAY USE

# SIMPLE, ECONOMIC AND SAFE PROCESS DOCUMENTATION

With DataDiary, documentation of reprocessing is simpler than ever before. Discover the convenience benefits afforded by app-based documentation:

## **Simple to handle**

With DataDiary, Miele Professional is offering an intuitive, app-based method of process documentation. It is a plug & play solution – simply connect a unit and off you go!

## **Wireless & secure**

Data is transmitted wirelessly and securely between the Miele machine and a tablet PC via encrypted WiFi (WPA2). User authentication is simple using an NFC tag or a user ID/PIN.

## **Single-source supply**

DataDiary now supports up to 9 thermal disinfectors from the PG 858x/9x series and Cube small sterilisers. Data is communicated via the surgery's network or directly on a point-to-point basis.

## **Reliable**

DataDiary provides gap-free and legally compliant documentation of reprocessing at your site. Reports can be exported in the practical PDF format.

# COMPACT SOLUTION FOR HIGH-QUALITY DEMINERALISED WATER

The Plug & Pure water treatment system can be connected directly to Cube and Cube X small sterilisers, providing a high-quality supply of demineralised water using ion exchange principle.

## Benefits of Plug & Pure water treatment system:

- Consistently high water quality in compliance with standards
- Cartridges replaced in only a few seconds
- No additional tools needed
- Convenient installation: Can be placed on machine or secured to wall with bracket

To benefit to the full from Miele's system, the APST 011 connector set can be used to connect a small steriliser together with a thermal disinfectant to a large VE P 2000 / 2800 demineralisation cartridge.

- Time and cost savings
- Automatic supply of demineralised water
- Simple connection to water supply

## **Immer Besser**

Since 1899, Miele – a family-run company – has subscribed to a clear corporate philosophy condensed into the two words 'Immer Besser' (forever better). This overarching claim is the foundation of Miele's proverbial quality and sustainability and the power of innovation of a brand 'Made in Germany'. A brand promise which gives professional users the certainty of having chosen the right product.

## **Award-winning**

Uncompromising product reliability and service dependability is the reason why customers have repeatedly voted Miele the best and most trustworthy brand. Coveted awards such as the MX Award, the iF and reddot Design Awards and the German Sustainability Prize confirm the distinguished position Miele enjoys with respect to design, quality management and the sparing use of resources.

## **Proficient**

Miele Professional has been developing and manufacturing a broad range of high-quality laundry machines, dishwashers, washer-disinfectors and sterilisers for decades. Carefully selected accessories, comprehensive advisory services and a Miele service operation which guarantees fast response times ensure that machines perform to perfection and offer the ultimate in capacity and efficiency.
