MANUFACTURING TRADITION SINCE 1958.

TECHNOLOGY, SERVICE AND ENGAGEMENT.

# WELCOME TO ANCAR

## Industrial tradition since 1958

At ANCAR, our working philosophy is very clear: to design the best dental equipment required by professionals. To do this we ground ourselves in 6 values that characterise each one of our creations such as value, ergonomics, technology, design, flexibility and the human touch.

All of these pillars, together with the effort and desire to be the best means that every day we are meeting new challenges and broadening our product range with the most innovative technological advances.

Our inception dates back to 1958, but the year that marks the turning point for ANCAR is 1988, the year we introduced our first dental unit, the Pyrinee model. Back then we could never have predicted, nor imagined the growth and salience that ANCAR would have acquired on the international stage 30 years on.

Getting to this point hasn't been easy, but guided by values such as determination, patience and humility we have managed to establish ourselves and gain recognition in a demanding and competitive market. Similarly, we have laid the foundations for a brand which is consolidated and valued in 32 countries across Europe, the Middle East, Oceania and the Maghreb.

At present, our range is made up of 40 different models, all of which are manufactured with the best materials whilst paying the utmost attention to every small detail. At ANCAR we are aware of the needs of dental professionals and patients, which is why all of our products are designed to meet all essential requirements.

Thanks to this work methodology we are able to build reliable, durable dental equipment manufactured from quality materials, with a focus on improving ergonomics by using the latest technologies.

Ancar's success over the course of its 60 year history isn't down to just one person; everybody deserves the credit! Only true, honest and professional team work is capable of justifying our experience and ensuring our future.

“This is our history,  
this is our philosophy,  
this is our commitment”.

## Series 7

*Sit Down Naturally*

An exciting line of equipment which guarantees comfort in the most natural way possible.

■ The refined aesthetics of the new S7 is currently a reality, which together with the infinite elegance present in the entire line of Ancar products, manages to stand out once again for its reliability and workplace ergonomics.

In addition to a coordinated structure of the best manufacturing elements together with coverage of the needs for dental practice, the series offers doctors a high quality product with immense work possibilities.

And... of course, it is made of aluminium.

## S7 chair

■ The precise representation of elegance mixed with ergonomics, providing an exclusive result for all the dental specialists across the globe who seek practicality, comfort and perfection not only in their work, but also in their patients' experience.

Discover the endless possibilities of the S7 chairs together with the Scandinavian Alone versions!

data

## S7 chair

Voltage 220-240V  
Frequency 50 - 60 Hz  
Power 400 W  
Electrical protection I type B  
Operation type Intermittent  
Maximum load (patient) 160 kg  
Shift movement 300mm  
Automatic shift: leg supplement  
1 Joystick seat movements  
1 Joystick with 4 position memories  
Standard seat fixed to the floor.  
Base for chair support not fixed to the floor.
