

Unica

professionalism exposed

Sterilization room has never been so beautiful

Just like the restaurant's open kitchens, a sterilization area visible to customers is a window into the quality and cleanliness of your practice.

We designed it with the core of the dental practice in mind, the heart of an organization like yours.

Spacious units, an elevated work surface for easy, upright work, wall cabinets with ready-to-use hooks for shelves and space-saving tools.

Plus, the customization of each detail, melding dreams and practicalities with a level of tailoring you've never seen before.

UNICA is what you've always wanted, but have never found.

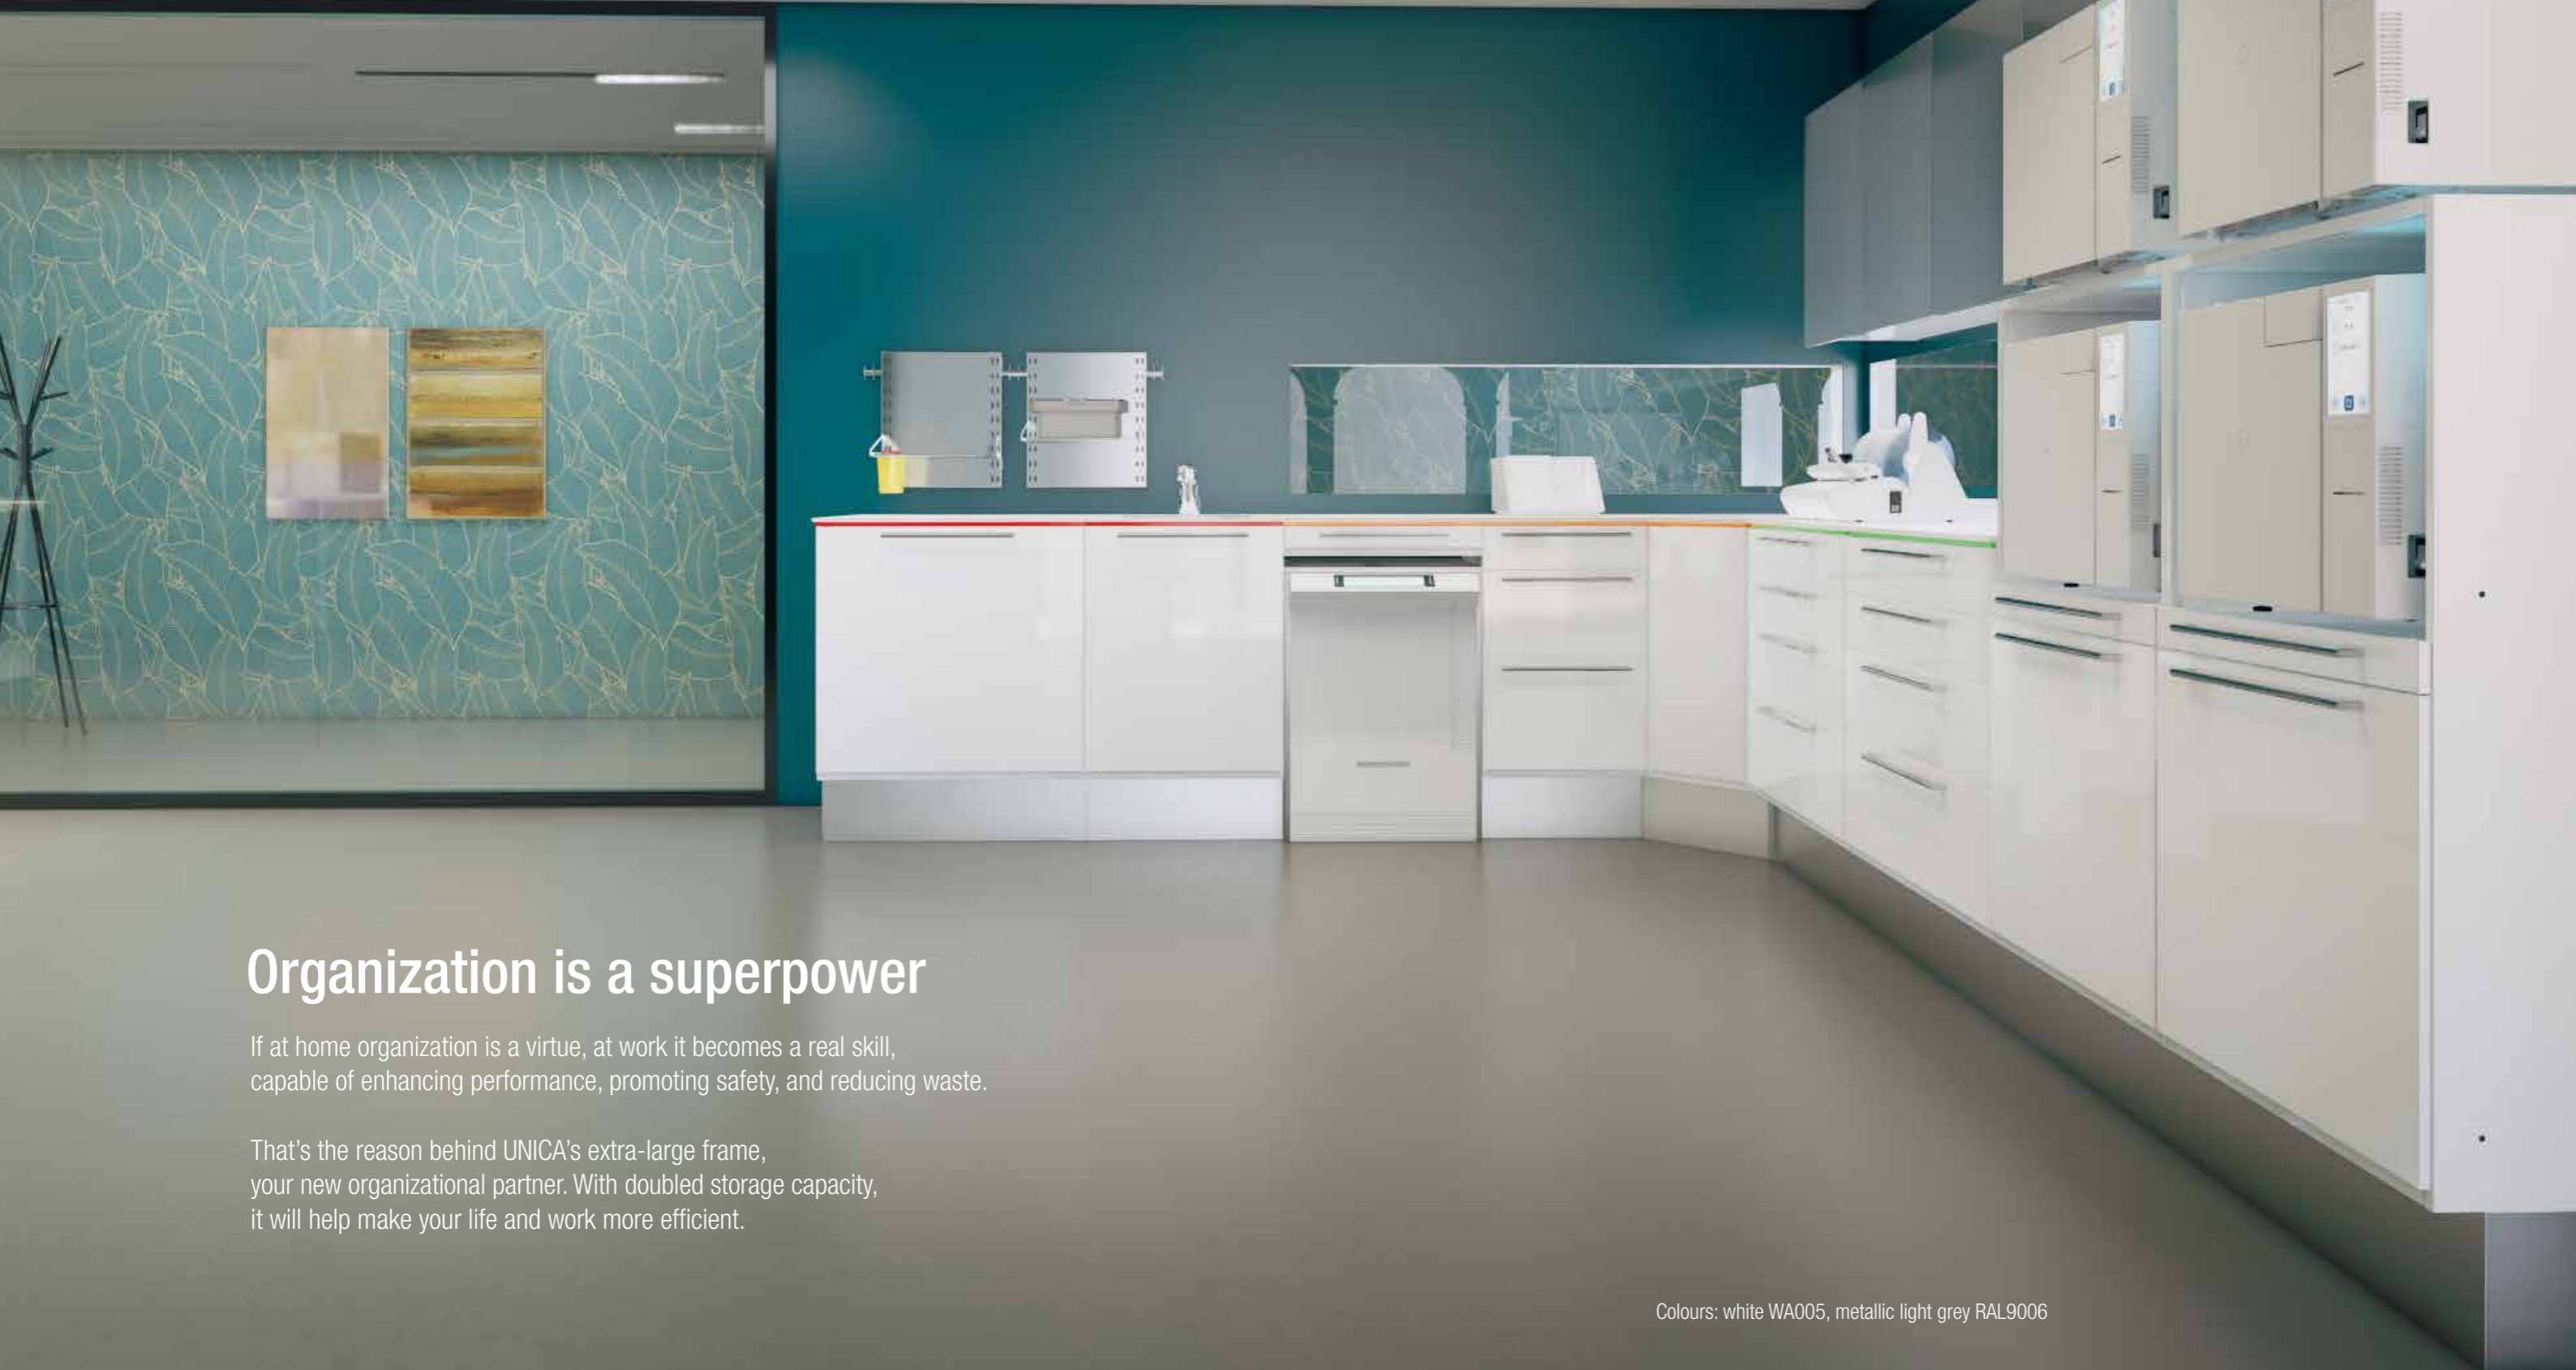

Your comfort zone

We've elevated the comfort level of your workspace by raising the shelf a few inches higher, just enough to avoid uncomfortable positions when standing for extended periods.

Our goal is to make your work more effortless, and you will be pleasantly surprised by opening the drawers. They are spacious and generous, yet glide smoothly, reliably, and quietly.

*Every minute counts, and every trick that saves you time is a victory.
Have you ever wished for an ally to improve time management?*

Organization is a superpower

If at home organization is a virtue, at work it becomes a real skill, capable of enhancing performance, promoting safety, and reducing waste.

That's the reason behind UNICA's extra-large frame, your new organizational partner. With doubled storage capacity, it will help make your life and work more efficient.

To design a tailor-made workspace with our furniture, contact your local dealer or write to us directly at info@dental-art.it

Everyday work, and style

Get ready for an unparalleled experience.

UNICA is the perfect mix of precision and flexibility as we know that your organization should not be limited by the rigidity of spaces.

With wall-mounted modules already set up for attaching shelves and space-saving accessories, you can maximize efficiency without sacrificing work surface.

And there's more! Customize your spaces as you like with the help of our designers, to tailor the best outfit for you, the most suitable for your everyday style.

made of meta!

Metal, the best choice for hygiene

Metal is our specific choice

it ensures a safer sanification respecting the environment. We believe in it, we know it well, we've been working it ever since with passion, experience, dedication.

We pay attention to each bending, to the smallest soldering, deleting any asperity: **these details make style, our style.**

made of **meta!** & born in Italy with pride
