Synea Fusion

The Synea Fusion is the world's most widely used contra-angle handpiece – quiet, strong and durable.

The air turbines in this series are equipped with ceramic bearings, a quadruple spray system, and are available with various head sizes.

Safety first: All Synea turbine handpieces are equipped with a technology that ensures that aerosols do not enter the instrument.

Lisa Mini

Compact, fast and easy to operate!

Just like the renowned Lisa large autoclave, this smaller version B autoclave is fast and features an easy-to-use touchscreen. Available with a 5- or 3-litre chamber.

Key features:

- Fast contra-angle handpiece cycle in just 10 minutes (5-litre chamber)
- Standard cycle time of 22 minutes (5-litre chamber)
- Data can be logged via USB, LAN or the W&H Steri App
- Can be connected to a demineralised water supply
- A label printer can also be connected
- Available in 2 or 3-tray format (5-litre chamber)

Osstell Beacon

Implant Stability Quotient (ISQ)

- › Monitoring of osseointegration
- › Makes an earlier prosthetic process possible
- › Improved predictability of treatment for patients with risk factors
- › Easy communication with patients through visualisation of the growing-in phase
- › Maximum flexibility thanks to wireless technology
- › The Osstell Beacon can be integrated with the latest generation of W&H Implantmed
