Synea Fusion

The Synea Fusion is the world's most widely used contra-angle handpiece – quiet, strong and durable.

The air turbines in this series are equipped with ceramic bearings, a quadruple spray system, and are available with various head sizes.

Safety first: All Synea turbine handpieces are equipped with a technology that ensures that aerosols do not enter the instrument.

Lisa Mini

Compact, fast and easy to operate!

Just like the renowned Lisa large autoclave, this smaller version B autoclave is fast and features an easy-to-use touchscreen. Available with a 5- or 3-litre chamber.

Key features:

- Fast contra-angle handpiece cycle in just 10 minutes (5-litre chamber)
- Standard cycle time of 22 minutes (5-litre chamber)
- Data can be logged via USB, LAN or the W&H Steri App
- Can be connected to a demineralised water supply
- A label printer can also be connected
- Available in 2 or 3-tray format (5-litre chamber)

Handy as an extra autoclave, when you have limited space or for small volumes!

Osstell Beacon

Implant Stability Quotient (ISQ)

- › Monitoring of osseointegration
- › Makes an earlier prosthetic process possible
- › Improved predictability of treatment for patients with risk factors
- › Easy communication with patients through visualisation of the growing-in phase
- › Maximum flexibility thanks to wireless technology
- › The Osstell Beacon can be integrated with the latest generation of W&H Implantmed

L'ostéo-intégration ? Rien de plus simple.

L'Osstell Beacon vous aide à déterminer de manière objective la stabilité de l'implant et à évaluer la progression de l'ostéo-intégration sans compromettre le processus de guérison. L'Osstell Beacon utilise la technologie RFA propriétaire et factuelle qui s'appuie sur des milliers d'études scientifiques. Il comprend également OsstellConnect, une plateforme gratuite basée sur le cloud qui permet d'accéder à de nombreuses données sur les implants et d'améliorer la communication avec les patients.

HIGH STABILITY

MEDIUM STABILITY

LOW STABILITY

L'**Osstell Classic** vous permet de déterminer de manière objective la stabilité de l'implant et d'évaluer sa progression dans le temps sans compromettre le processus de guérison. Cet appareil facile à utiliser fournit des mesures fiables et précises pour appuyer les décisions cliniques. Son design sans fil ergonomique accroît l'efficacité de votre pratique quotidienne. L'Osstell Classic n'est pas disponible sur tous les marchés. OsstellConnect non inclus.

Osstell Classic

The Osstell Classic has the same functionalities as the Osstell Beacon, but without the option to use the Osstell Connect Portal, and it cannot be connected to W&H Implantmed.
