

Decarbonisation of the healthcare sector

A challenging governance

Health
Food Chain Safety
Environment

Judith Lambert

Project coordinator decarbonisation of the healthcare sector

Judith.lambert@health.fgov.be

Divided competencies in a federal state

Subsidiarity

social and political issues should be dealt with at the most immediate or local level in which they are still most effective

Health sector climate policy

Variety on transsectorial, horizontal, intergovernmental issues

NEHAP working group

Federal level

- Ministry of Health: DG Health
- Ministry of Health: DG Environment

Flanders

- Department Care
- Department Environment

Brussels

- Vivalis (care)
- Brussels.environment

Wallonia

- Agency for Life Quality
- Public service for Environment
- German Speaking Community

Governance & leadership

Effective
action
