

TOP MOUNT LOW CLEARANCE SYSTEM RECOMMENDED TOOLS

Drill with 1/8″, 1/4″ and 3/8″ Bits, and Phillips Bit

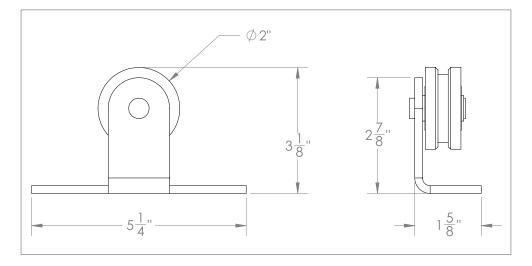

Socket Wrench with 9/16″ Socket

7/32" Allen Wrench

Level

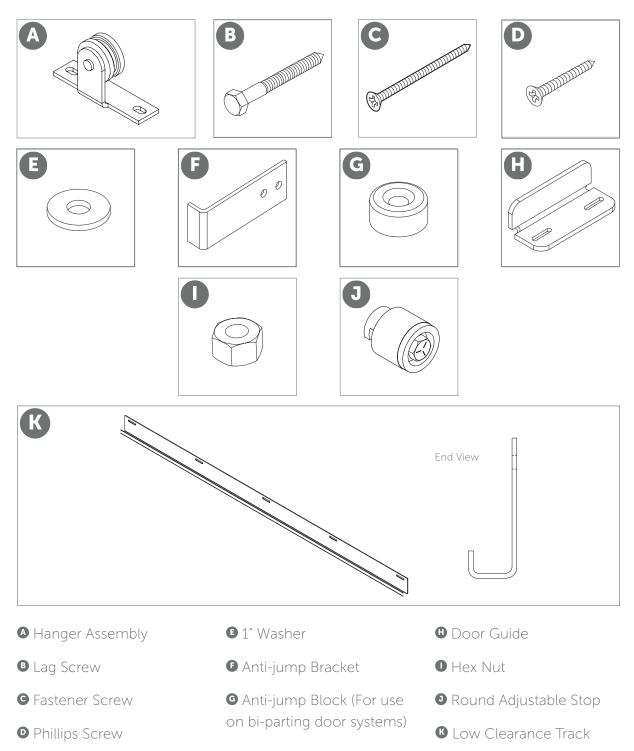

Tape Measure

TOP MOUNT LOW CLEARANCE SYSTEM SPECIFICATIONS

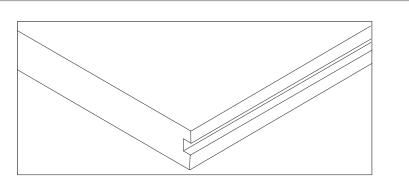

TOP MOUNT LOW CLEARANCE SYSTEM PARTS

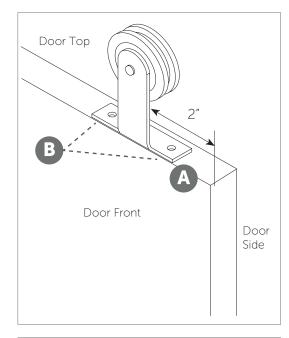

DIT! (DO IT TOGETHER) WE RECOMMEND TWO PEOPLE FOR THIS BUILD

NOTE: Doors using Floor Mount Door Guides will have a groove on the bottom. Ensure this groove is on the opposite end of the Door Hanger Installation.

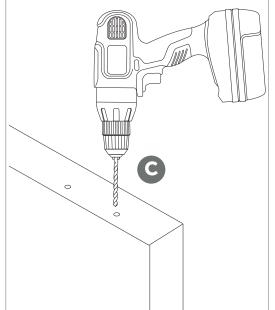

INSTALLATION FOR SQUARE-EDGE DOORS

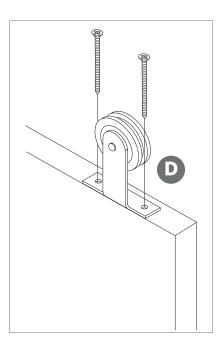

Place the hanger on the top surface of the door, 2" from the edge of the door side and flush with the door front. Ensure the front of the hanger and the front of the door are facing the same direction.

NOTE: If the door is 3 or more inches thick, mount the hanger in the center between the front and back of the door.

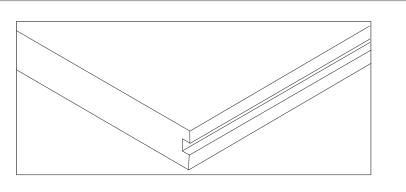

• Drill two pilot holes for each hanger using an 1/8" bit.

• Attach the hanger to the door using two fastener screws (provided). Repeat the process on the opposite end of the door.

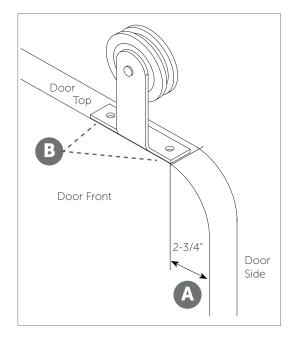

NOTE: Doors using Floor Mount Door Guides will have a groove on the bottom. Ensure this groove is on the opposite end of the Door Hanger Installation.

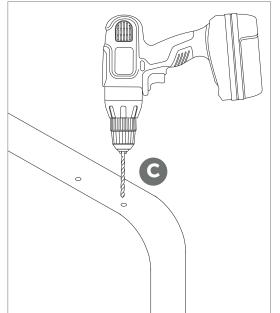

INSTALLATION FOR CURVE-EDGE DOORS

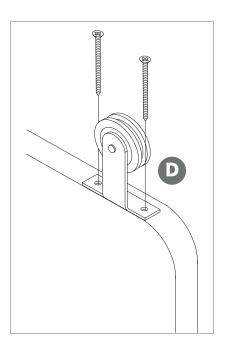

Place the hanger on the top surface of the door, 2-3/4" from the edge of the door side and flush with the door front. Ensure the front of the hanger and the front of the door are facing the same direction.

NOTE: If the door is 3 or more inches thick, mount the hanger in the center between the front and back of the door.

• Drill two pilot holes for each hanger using an 1/8" bit.

• Attach the hanger to the door using two fastener screws (provided). Repeat the process on the opposite end of the door.

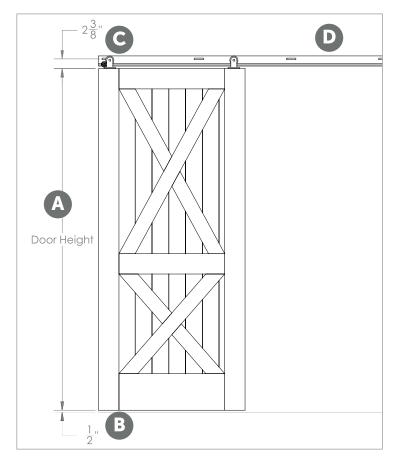

FIRST THINGS FIRST

Check to see if the floor below the track is level. If the floor rises more than 1/2", the door may rub or not slide open completely. If the floor is not level, measure from the highest point of the floor surface to the recommended track placement and adjust track placement accordingly.

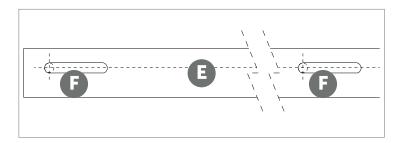

Ensure the track will be installed onto wall studs. If wall studs are not lining up with the installation a header will be required to provide the necessary strength and stability for the track and door.

TRACK & DOOR INSTALLATION

▲ To determine where the track should be installed, first measure the height of the door, then add 2-7/8" to the door length. ■ 1/2" will be for the clearance between the bottom edge of the door and the floor. ● 2-3/8" will be from the top edge of the door to the center of the hole.

• Using a level and a pencil, mark a line above the doorway the same length as the track.

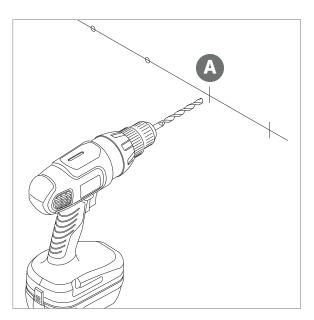

Hold the track up to where the pencil line is visible through the holes in the track.

SUGGESTION: Use pieces of double stick tape on the back of the track to help hold the track in place while completing steps **1** and **1**.

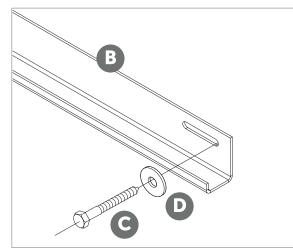

• Mark an intersecting line inside each slotted hole wherever they work best for your wall (i.e. stud locations).

Take the track down, remove double stick tape (if used) and set the track aside.

 \bullet Drill out the marked holes using a drill with a 1/4" drill bit.

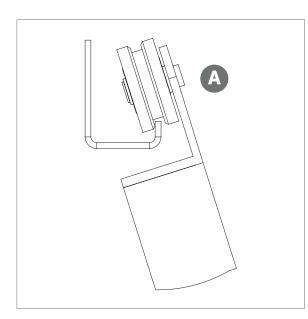

B Attach one end of the track to the wall with ⊙ one lag screw, ○ and one washer (provided) using a socket wrench with 9/16" socket. Do not tighten.

Install remaining lag screws and washers (provided) using a 9/16" socket wrench. Tighten all lag screws.

A Hang the door.

B D C C

With the door in the closed position, ensure the door is hanging straight using a bubble level.

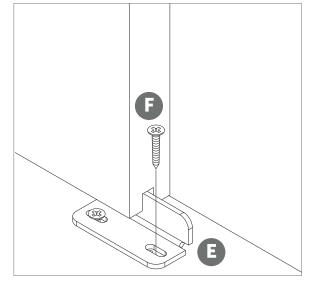

• Position the Door Guide part way into the groove in the bottom of the door.

SUGGESTION: Use double stick tape on the bottom of the door guide to hold the guide in place.

 Install the Door Guide using a Phillips screw (provided) and a drill with a phillips bit.

Install the second Phillips screw (provided) using a drill with a phillips bit.

ADJUSTABLE STOP INSTALLATION

• Place the adjustable stop on your track.

Position along the length of your track to stop door at the desired location. Tighten bolt with a 9/16" wrench/socket.

WE LOVE WHAT YOU'RE DOING WITH THE PLACE

CONGRATULATIONS ON YOUR DECISION TO BRING HOME AN AMERICAN MADE PRODUCT OF THE HIGHEST QUALITY. WE HOPE YOUR TOP MOUNT LOW CLEARANCE SYSTEM BRINGS ART AND FUNCTION INTO YOUR LIFE.
