

VIER AI Gateway

Your safe access to AI

Fast. Easy. Flexible.

Generative AI brings huge opportunities and needs to be used responsibly. VIER AI Gateway protects your data, ensures compliance, and safeguards complete control over your AI usage – so that you can innovate without compromise.

VIER AI Gateway establishes a safe connection between your business applications and leading AI models – a platform to achieve maximum control and efficiency.

How it works

- › **Centralized control:** manage all AI models via one platform.
- › **Protect data:** anonymization & compliance check for safe use of AI.
- › **Adapt flexibly:** select the best AI for each use case.
- › **Maintain cost control:** a well-structured dashboard provides transparency.
- › **Knowledge Manager:** use corporate knowledge in a safe and secure way.
