### Large businesses pay higher tax rates.

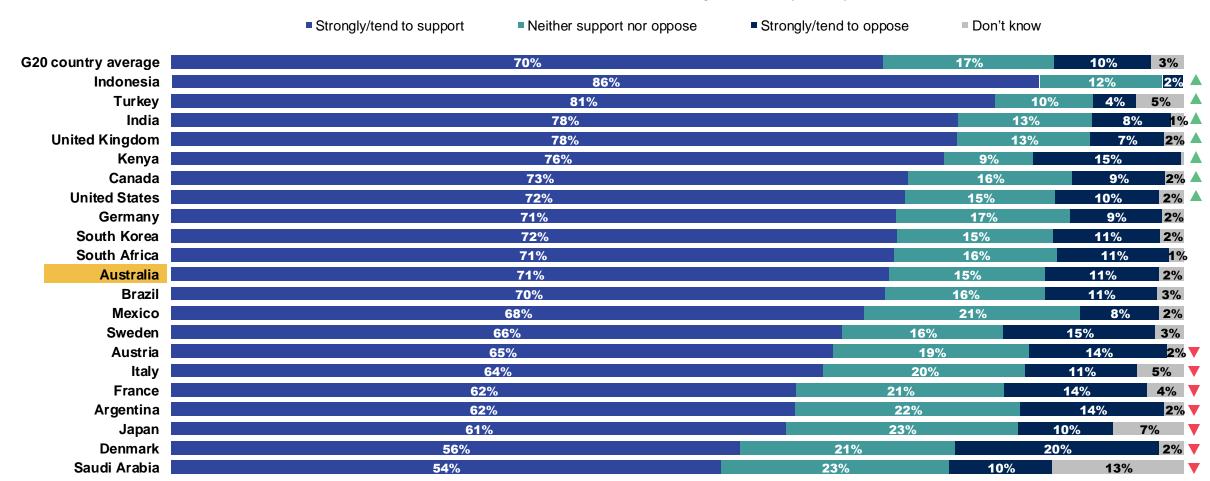

Q16. To what extent if at all would you support or oppose the following proposals as means of funding major changes to our economy and lifestyles?

### Wealthy people pay higher rates of income tax.

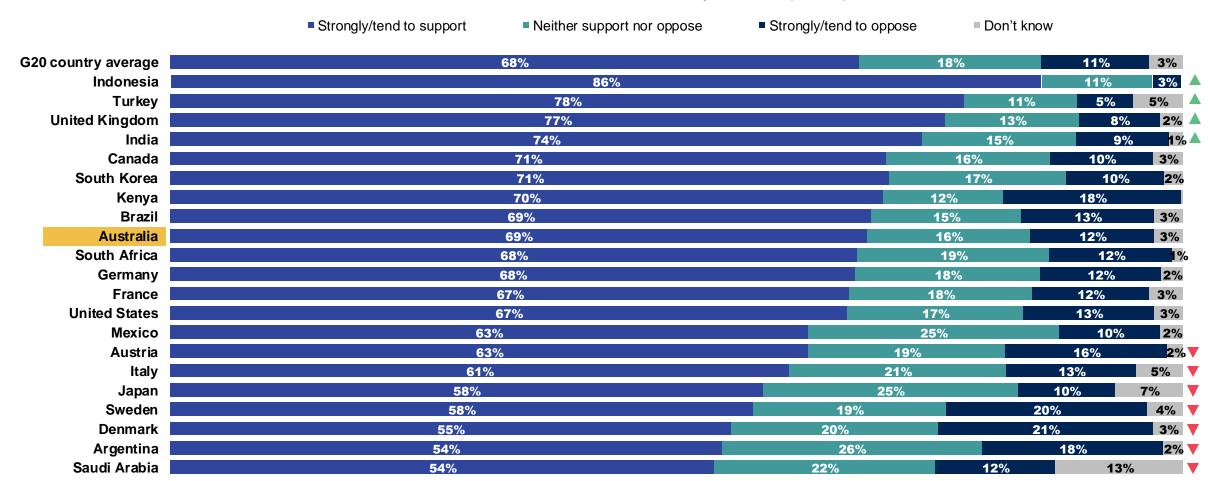

Q16. To what extent if at all would you support or oppose the following proposals as means of funding major changes to our economy and lifestyles?

### Wealthy people pay a higher tax on their wealth.

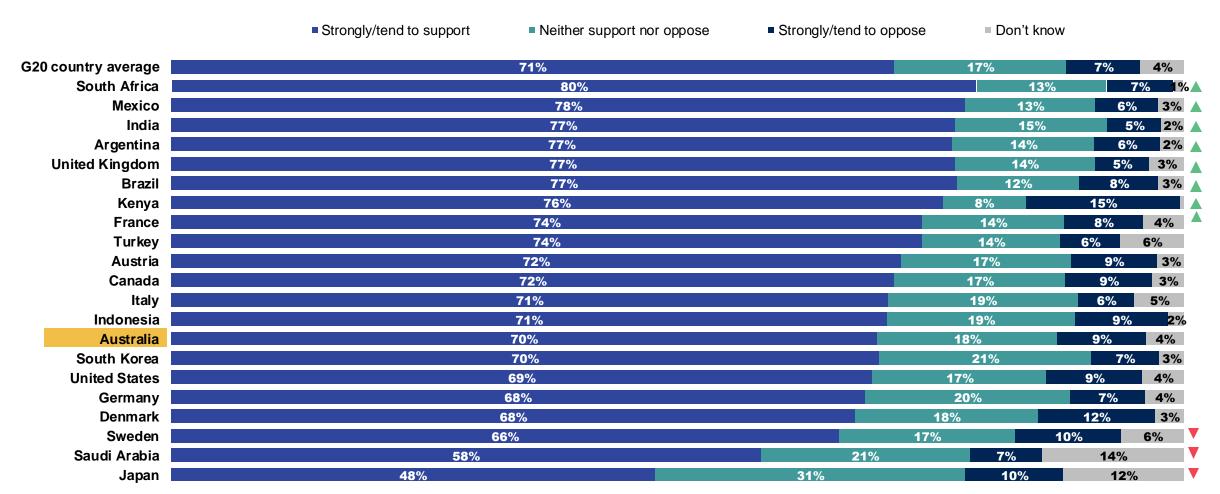

Q16. To what extent if at all would you support or oppose the following proposals as means of funding major changes to our economy and lifestyles?

People and companies that pollute the environment for example by causing greenhouse gas emissions should pay higher taxes, with the money raised shared out among people and companies who pollute less.

Q16. To what extent if at all would you support or oppose the following proposals as means of funding major changes to our economy and lifestyles?

Base: 21,000 across 21 countries, 18 - 55-75, online interviews, 5th March – 8th April 2024. Argentina (1,000), Australia (1,000), Brazil (1,000), Brazil (1,000), Denmark (1,000), France (1,000), Germany (1,000), India (1,000), Ind

To what extent if at all would you support or oppose the following proposals as means of funding major changes to our economy and lifestyles? (Strongly / tend to support).

Q16. To what extent if at all would you support or oppose the following proposals as means of funding major changes to our economy and lifestyles?

## There's too much economic inequality in [COUNTRY] these days.

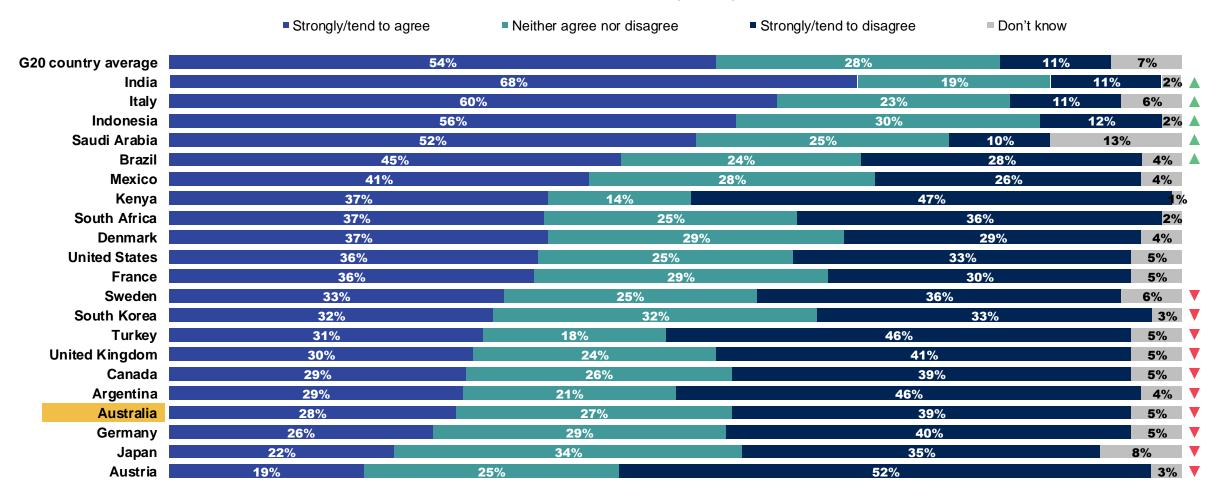

Q13. To what extent, if at all, do you agree or disagree with the following statements about the economy in your country?

### We are all better off when some people get rich, because their spending and investment trickles down throughout [COUNTRY]'s society, leading to more wealth for all.

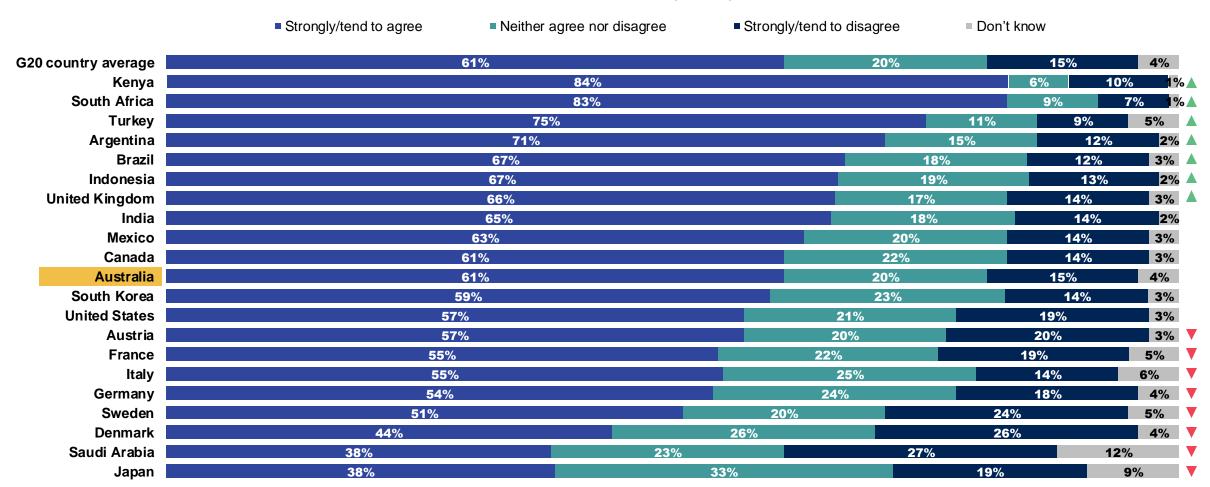

Q13. To what extent, if at all, do you agree or disagree with the following statements about the economy in your country?

# The economic system in [COUNTRY] hurts people who have least money.

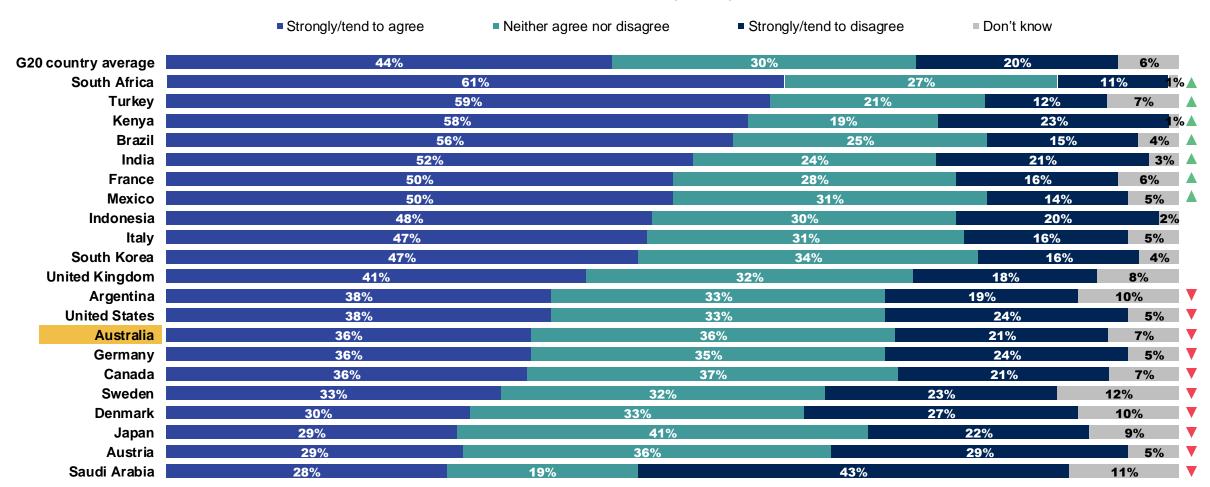

Q13. To what extent, if at all, do you agree or disagree with the following statements about the economy in your country?

### The economic system in [COUNTRY] is bad for the environment.

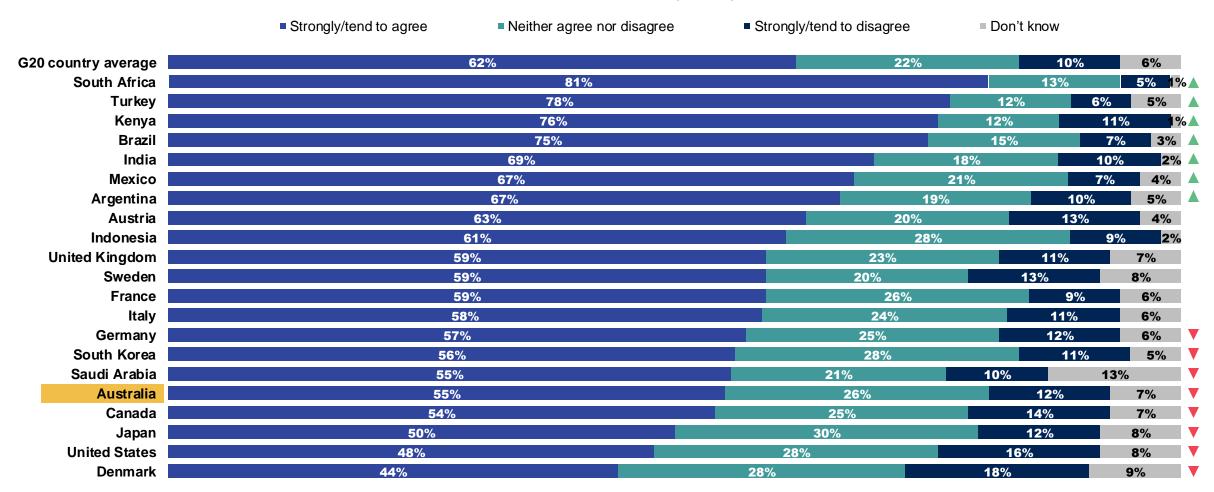

Q13. To what extent, if at all, do you agree or disagree with the following statements about the economy in your country?

### The way the world's economy works now is unfair to poorer countries.

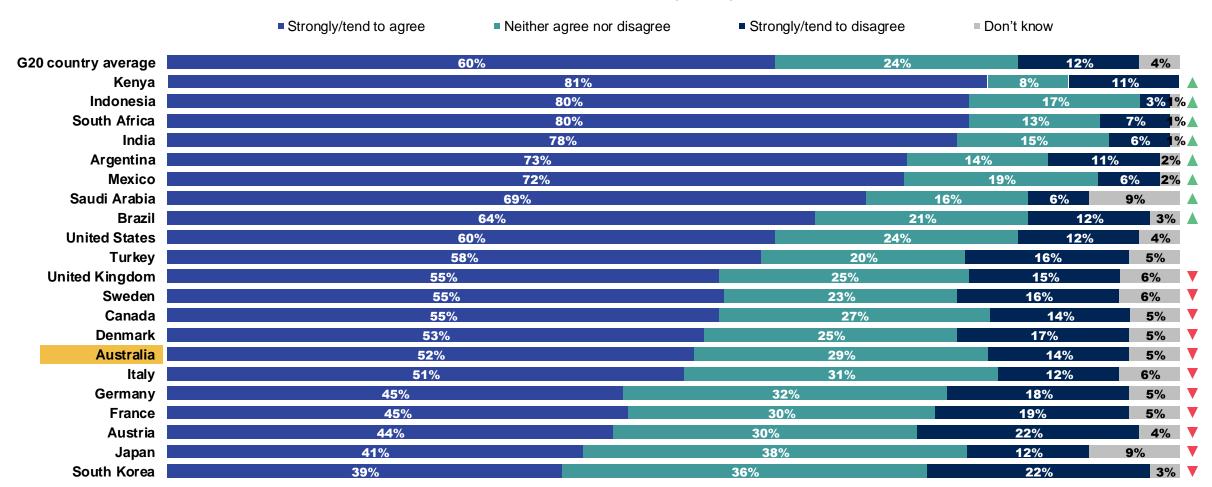

Q13. To what extent, if at all, do you agree or disagree with the following statements about the economy in your country?

## Focusing on economic growth in [COUNTRY] is the best way to achieve wealth and wellbeing for all who live here.

Q13. To what extent, if at all, do you agree or disagree with the following statements about the economy in your country?

## Methodology

# 

## Objectives and methodology.

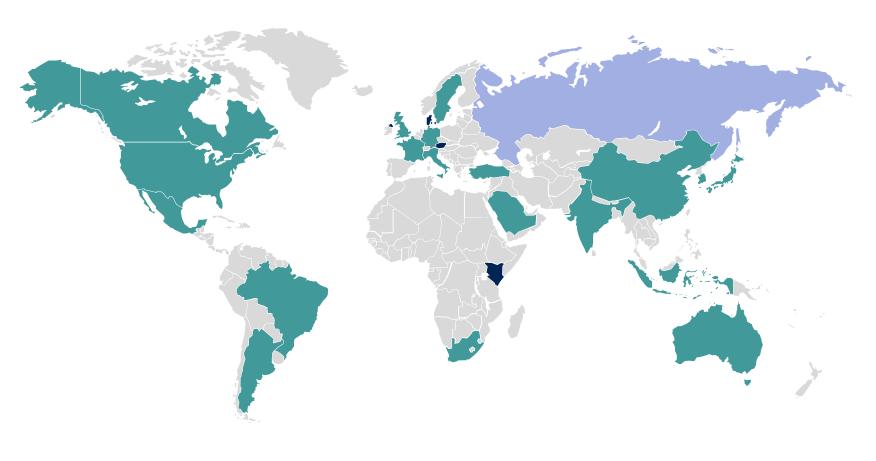

- Commissioned by Earth4All and the Global Commons Alliance, in partnership with The Policy Institute Kings College, Wellbeing Alliance, ISWE, and Wellbeing Economy Alliance, Ipsos conducted research to understand attitudes to societal transformations, political / economic systems and planetary stewardship. Questions focused on: values and worldviews, attitudes towards nature and planetary stewardship, attitudes towards national and global political and economic systems, levels of support for Earth4All policy recommendations. This report focuses on attitudes towards national and global political and economic systems, and levels of support for Earth4All policy proposals.
- Ipsos surveyed 22,000 participants aged 18 to 55-75 in total across 22 countries. This included 18 G20 countries (Argentina (1,000), Australia (1,000), Brazil (1,000), Canada (1,000), China (1,000), France (1,000), Germany (1,000), India (1,000), Indonesia (1,000), Italy (1,000), Japan (1,000), Mexico (1,000), Saudi Arabia (1,000), South Africa (1,000), South Korea (1,000), Turkey (1,000), United Kingdom (1,000), United States (1,000)), plus four counties outside the G20 (Austria (1,000), Denmark (1,000), Kenya (1,000) and Sweden (1,000)). Not all questions were asked in China. All interviews were conducted online and took place between 5th March and 8th April 2024.
- Quota sampling was used, and in each country data are weighted to be representative of the national population on age, gender, region and working status. Where results do not sum to 100, this may be due to rounding, multiple responses, or the exclusion of 'don't know' categories.
- This report presents a 'G20 country average' and compares individual countries against this. Overall 'G20 country average' percentage is an arithmetic average of national results across the 18 G20 countries surveyed (or 17 G20 countries in the case of questions that were not asked in China), where the results from each country have the same weight and are not pro-rata to the true population proportions for this audience.
- This report presents the findings from Australia, comparing responses with the other nations surveyed. This study also compares responses from different demographic groups in Australia. In Australia, 1,000 participants aged 18-75 were interviewed in English between 5th March and 8th April 2024.

## Methodology: Study Coverage.

22 countries were included in the study, a total of **22,000 participants** from age 18 to 55-75.

Some questions that were asked were also run in the Global Commons Survey in 2021. Where this is the case, trend data has been shown for those countries included in both the 2021 and 2024 studies.

## Methodology: demographics/subgroups bases.

## **Ipsos Standards & Accreditations**

Ipsos's standards & accreditations provide our clients with the peace of mind that they can always depend on us to deliver reliable, sustainable findings. Moreover, our focus on quality and continuous improvement means we have embedded a 'right first time' approach throughout our organisation.

**ISO 20252** – is the international specific standard for market, opinion and social research, including insights and data analytics. Ipsos in the UK was the first company in the world to gain this accreditation.

The UK General Data Protection Regulation (UK GDPR) & the UK Data Protection Act 2018 (DPA) – Ipsos UK is required to comply with the UK General Data Protection Regulation and the UK Data Protection Act; it covers the processing of personal data and the protection of privacy.

MRS Company Partnership – By being an MRS Company Partner, Ipsos UK endorse and support the core MRS brand values of professionalism, research excellence and business effectiveness, and commit to comply with the MRS Code of Conduct throughout the organisation & we were the first company to sign our organisation up to the requirements & self-regulation of the MRS Code; more than 350 companies have followed our lead.

**HMG Cyber Essentials** – A government backed and key deliverable of the UK's National Cyber Security Programme. Ipsos UK was assessment validated for certification in 2016. Cyber Essentials defines a set of controls which, when properly implemented, provide organisations with basic protection from the most prevalent forms of threat coming from the internet.

**ISO 9001** – International general company standard with a focus on continual improvement through quality management systems. In 1994 we became one of the early adopters of the ISO 9001 business standard.

**Fair Data** – Ipsos UK is signed up as a 'Fair Data' Company by agreeing to adhere to twelve core principles. The principles support and complement other standards such as ISOs, and the requirements of Data Protection legislation.

**ISO 27001** – International standard for information security designed to ensure the selection of adequate and proportionate security controls. Ipsos UK was the first research company in the UK to be awarded this in August 2008.

This work was carried out in accordance with the requirements of the international quality standard for market research, ISO 20252 and with the Ipsos UK Terms and Conditions.

# Appendix: Trending vs Global Commons research

The way [COUNTRY]'s economy works should prioritise the health and wellbeing of people and nature rather than focusing solely on profit and increasing wealth in [COUNTRY]. (Strongly / tend to agree).
