COMPANY OVERVIEW

About Us

Unisoft Synthetic Industries specializes in chemicals, EVA rolls, and our world-class line of Uniworld adhesives and chemicals. We focus on delivering high-quality raw materials and chemical solutions, including EVA sheets/rolls, insoles, insulation rolls, cow mats, yoga mats, prayer mats, floor mats, puzzle mats, PU soles & footwear, adhesives, primers, and hardeners. Our products are manufactured using state-of-the-art technology and adhere to the highest industry standards. We are dedicated to providing durable, reliable, and innovative solutions to meet the diverse needs of our customers.

OUR PROCESS

Mission

Our mission is to deliver **superior quality** products that meet the diverse needs of our customers. We are dedicated to manufacturing and supplying innovative solutions that enhance the lives of individuals and businesses alike. Through continuous improvement, state-of-the-art technology, and a customer-centric approach, we aim to exceed expectations and build enduring relationships with our clients.

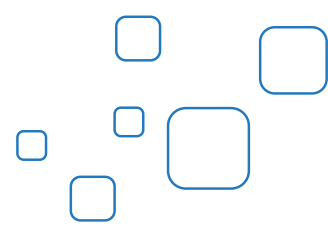

Vision

Our vision is to become a **globally recognized leader** in the foam, plastics and chemical manufacturing industry.

We strive to continuously innovate, expand our product offerings, and establish long-lasting partnerships with our customers, partners and patrons. Through our commitment to excellence, we aim to contribute to the growth and development of industries in Bangladesh and around the world.

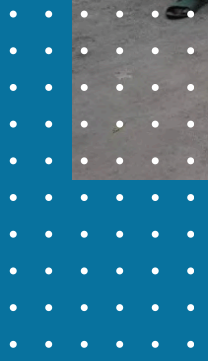

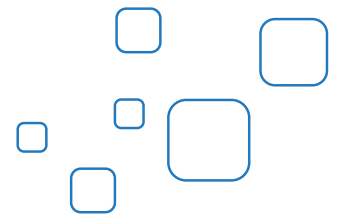

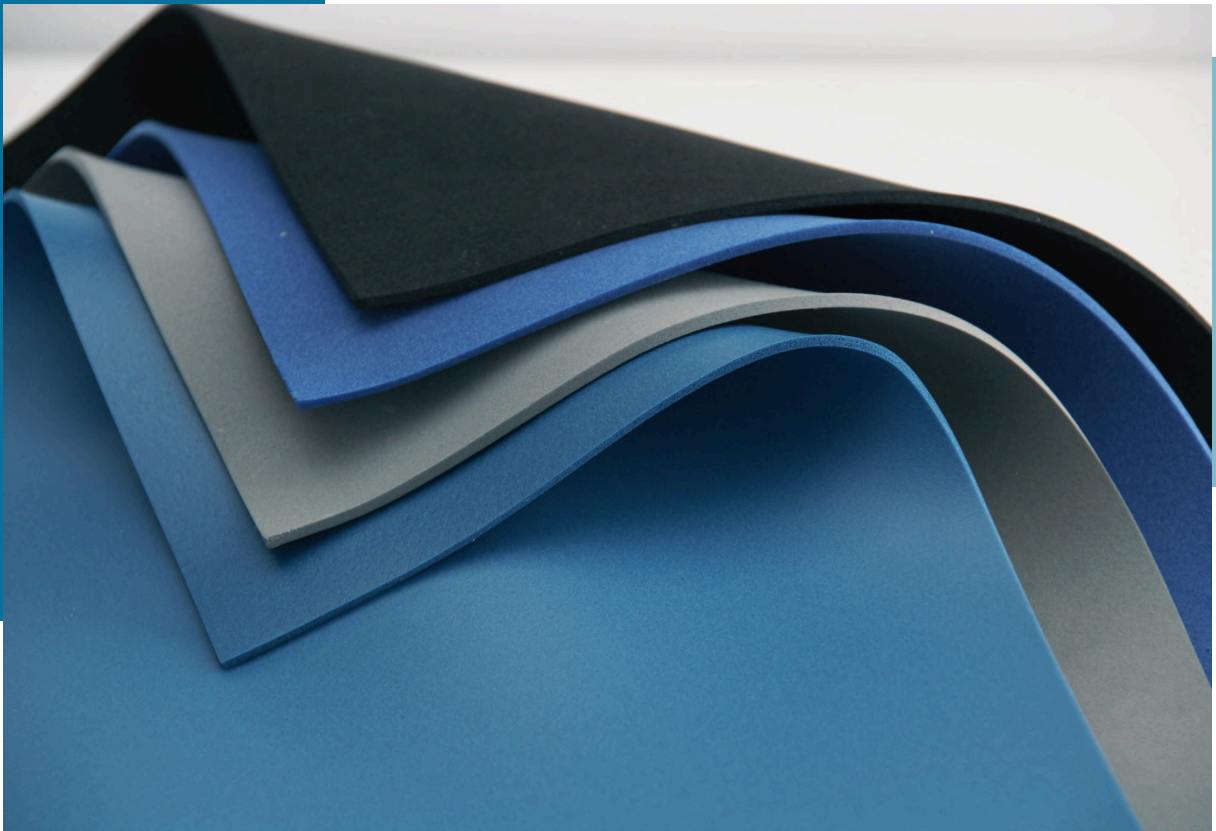

OUR APPROACH

At Unisoft Synthetic Industries, we value our customers and strive to exceed their expectations. Our team of experienced professionals is committed to maintaining the highest level of quality throughout every aspect of our operations.

Through our unique approach, we aim to make a positive impact on the industries we serve, contribute to sustainable growth, and empower our customers to achieve their goals. Together, we strive to shape a future where innovation, customization, and responsibility go hand in hand, creating value for all stakeholders involved.

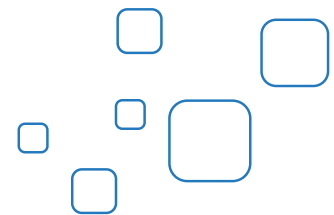

Unisoft Synthetic Industries EVA Foam

Our EVA foam products can be adapted for a wide range of industrial, commercial, and personal uses, providing versatility, customizability and high performance in every application.

- **EVA Rolls: Available from 0.8mm to 60mm configuration with customization regarding width, hardness, thickness and surface**
- **EVA Sheets: EVA Sheets are customizable in thickness (0.8mm to 60mm), width, hardness, and surface finish to suit various applications.**
- **Shoe Insoles**
- **Insulation rolls**
- **Yoga mats**
- **Prayer mats**
- **Floor mats**
- **PU soles & footwear**

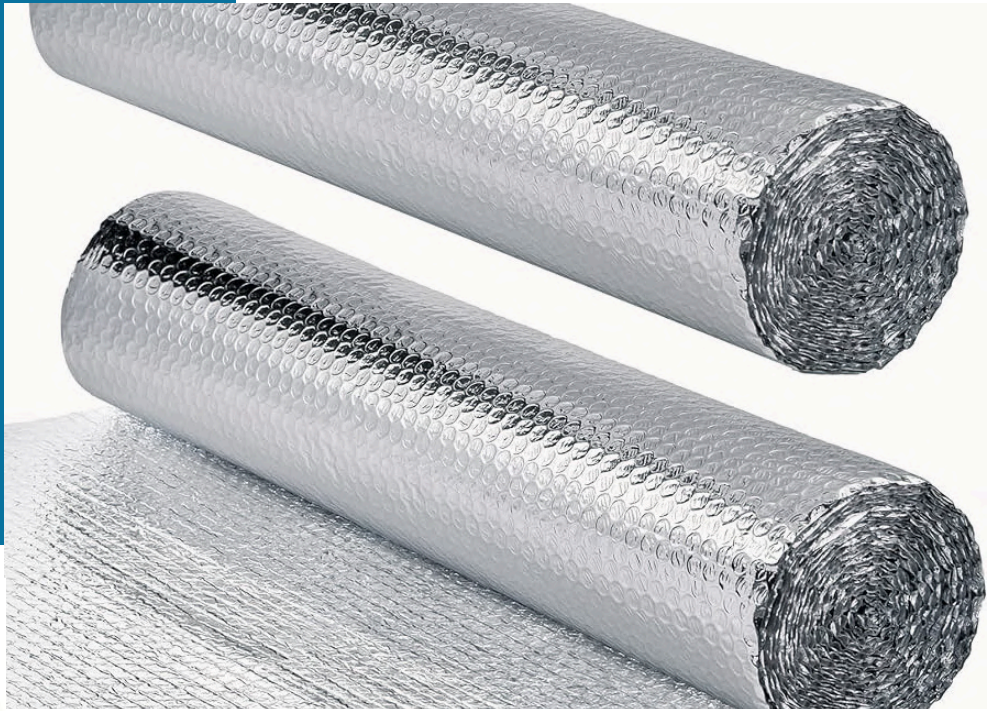

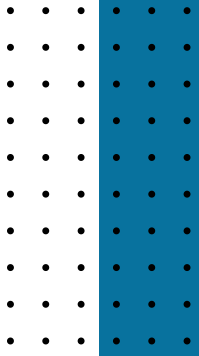

TM

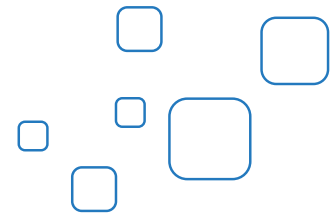

Uniworld Adhesives and Chemicals

- **Polyurethane Adhesive**
 - **Rubber Solution (NP-3600)**
 - **Sprayable SBS adhesive**
 - **PU/PVC Primer**
 - **EVA Primer**
 - **TPR Primer**
 - **Grafted Adhesive (NP-285)**
 - **Acetic Silicone Sealant**
 - **Lacquer Spray Paint**
 - **Grafted Glue Synthetic**
 - **Rubber Adhesive**
 - **Gasket Adhesive**
 - **Cyanoacrylate super glue**

OUR PRODUCTS

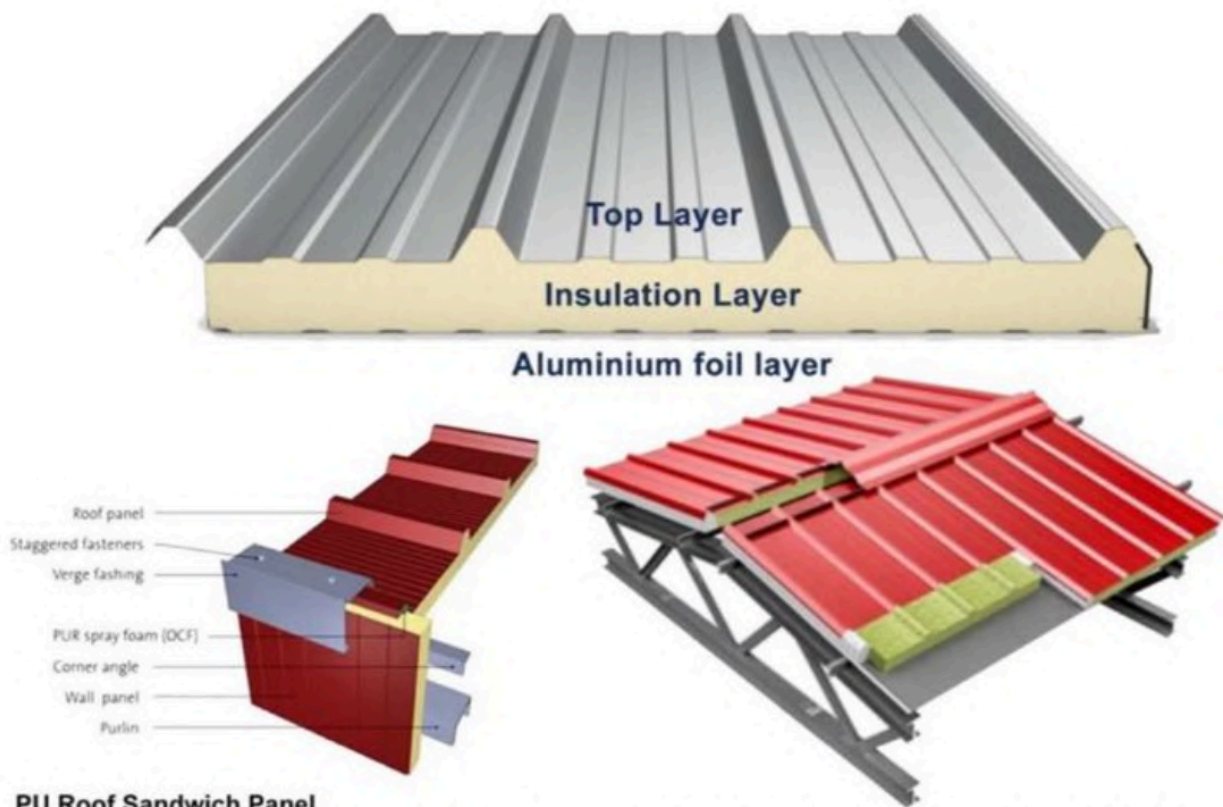

Unisoft Mats

Unisoft Mats is a leading provider of high-quality mats, offering a diverse range of products to meet various needs:

- Floor Mats: Available in various sizes and customizable options
- Yoga Mats: Designed for comfort and durability
- Cow Mats: Robust and long-lasting
- Insulation Rolls: Effective for multiple applications
- EVA Puzzles and Toys: Safe and engaging for children

Our products are crafted with premium materials to ensure top-notch performance and reliability.

PU Roof Sandwich Panel

Roof sandwich panels with polyurethane foam cores meet the strictest heat insulation requirements, while also complying with the required insulation properties and maintaining a good bearing capacity.

We supply a wide range of Roofing Sheets which are made of premium quality material which are durable and effective in application in construction industries. We provide them in various colors and sizes as per the specifications of the clients. These are easy to install and maintenance free. They are very attractive to appearance which is offered at cost effective rates at international standard.

PU sandwich are composed of 3 layers.

- External PPGI
- Memory PU insulation layer
- Aluminum foil layer

Which are widely using are

- Cold room/cold storage
- Container houses
- Pre-fabricated house & shelter
- Portable cabins
- Health center
- Schools, Stadium, warehouse
- Poultry, dairy, fishery shade project
- Green house insulated roof/wall
- Sub Zero temperature area
- Clean room
- Freezer room
- Bungalow & cottage houses and many more

Advantage/benefit of PU panel

- Light weight (resulting to save & use less materials in building & reduce total cost)
- First and easy installation/construction
- Low heat transfer coefficient
- Fire resistance class of B & B1
- Moisture insulator & water proof/ Air & water tightness
- Sound insulator/Noise free buildings
- Low energy consumption (Cooling & heating lost efficiency)
- High resistance against microbial & biologic contamination
- Product appearance and various color option
- Prevent rusting and corrosion

Specification

- Thickness of steel sheet 0.3-0.5mm
- Thickness of PU insulation 40-100mm
- Width 36"
- Length as per customer requirement
- Life time: 15 -20 years

Unisoft Cool Tin

Producing PUR and PIR tin products, including:

- Cold room shades
- Poultry shades
- Dairy shades
