## Keahlian Teratas

Artificial Intelligence (AI)  
Natural Language Processing (NLP)  
Android Development

## Certifications

Belajar Dasar Structured Query  
Language (SQL)  
Belajar Dasar AI  
Belajar Dasar Git dengan GitHub  
Belajar Fundamental Aplikasi  
Android  
Belajar Membuat Aplikasi Android  
dengan Jetpack Compose

# Tubagus Alwasi'i

Informatics Graduate | AI & Machine Learning | Android Developer |  
NLP Enthusiast  
Indonesia

## Ringkasan

I enjoy turning ideas into real applications—whether it's building intelligent systems with AI, developing mobile apps, or improving web-based platforms. As an Informatics graduate, I've worked on projects across AI (LLaMA & NLP), Android development (Bangkit Academy), and web systems (Laravel & Filament during my internship). I'm currently looking for opportunities where I can grow as an AI or Software Engineer and contribute to impactful technology solutions.

## Pengalaman

Balai Diklat Industri Yogyakarta  
Pranata Komputer Intern (MagangHub Program)  
Desember 2025 - Present (5 bulan)  
Daerah Istimewa Yogyakarta, Indonesia

Worked as a Pranata Komputer Intern at Balai Diklat Industri Yogyakarta through the MagangHub program. Developed and enhanced web-based systems using Laravel and Filament, focusing on administrative and document management features. Implemented functionalities such as document handling, file management integration, and export features for reporting systems. Performed system debugging, testing, and data validation to ensure accuracy and performance. Collaborated with team members to analyze requirements and improve system functionality.

Bangkit led by Google, Goto, and Traveloka  
Android Development Cohort – Bangkit Academy  
Agustus 2024 - Januari 2025 (6 bulan)  
Индонезия

Selected as an Android Development cohort in Bangkit Academy (MSIB), a program led by Google, Tokopedia, Gojek, and Traveloka. Learned Android development using Kotlin, including building mobile applications with modern development practices. Developed Android applications by implementing UI/UX design, API integration, and data handling. Collaborated in a capstone

project to build a real-world mobile application as a team. Strengthened problem-solving, teamwork, and communication skills in an intensive learning environment.

---

## Pendidikan

Universitas Islam Sultan Agung Semarang

Bachelor of Computer Science, Informatics · (Agustus 2021 - November 2025)
