FIRST SCHEDULE

CALCULATION OF INTEREST WHERE THE INTEREST CHARGED ON A LOAN IS NOT EXPRESSED IN TERMS OF A RATE

Section 16 and 21

1. The amount of principal outstanding at any time shall be taken to be the balance remaining after deducting from the principal the total of the portions of any payments appropriated to

principal in accordance with the provisions of this Law.

2.The several amounts taken to be outstanding by way of principal during the several periods, ending on dates on which payments are made, shall be multiplied in each case by the number of calendar months during which those amounts are taken to be respectively outstanding and there shall be ascertained the aggregate amount of the sum so produced.

3.The total amount of the interest shall be divided by one-twelfth part of the aggregate amount mentioned in paragraph 2 of this Schedule, and the quotient, multiplied by 100 shall be taken to be the rate of interest per centum per annum.

4.If having regard to the intervals between successive payments it is desired so to do, the calculation of interest may be made by reference to weeks instead of months, and in such case paragraph 1,2 and 3 shall have effect as though in paragraph 2 the word ‘weeks’ were substituted for the words "calendar months", and in paragraph 3 the words "one fifty-second" were substituted for the words “one-twelfth”.

5. Where any interval between successive payments is not a number of complete weeks or complete months, paragraphs 1,2,3 and 4 shall have effect as though one day were one-seventh part of a week or one-thirtieth part of a month, as the case may be.

SECOND SCHEDULE

Formula to be used to find the rate *per centum per annum* where no rate is stated and repayment is to be made by equal instalments at equal intervals of time section 16,

$$\frac{100 \times I \times 24}{(N + 1) \times P \times L}$$

Where I = Total interest repayable
N = Number of instalments
P = Principal.
L = Number of calendar months in the intervals between instalments.
