

An Evening in San Lorenzo Canyon

With the

Manzano YSA Branch

www.ManzanoBranch.org

www.facebook.com/ManzanoBranch

What?

A spring evening in the beautiful San Lorenzo Canyon. There will be games, food and music for those who might want to scoot their boots. Not to mention PEOPLE. Those you know and those you should get to know.

Why?

The Manzano YSA Branch is anxious to get to know the young single adults throughout the Stake and learn how we might better serve them. So, if you've been to the canyon you know why we're going there. If you haven't you'll learn why this is such a popular site.

Where?

The San Lorenzo Canyon site is northwest of Socorro and about 5 miles northwest of Lemitar, NM. The area can be reached by taking the western frontage road north from Lemitar (along I-25) and driving about 5 miles. At that point, you follow a maintained dirt road west which will take you to the canyon.
