

Prairie Bowmen

May 2016

President's Report

Hope everyone found success with turkey season and are enjoying spring.

We had an outdoor 3D shoot the weekend of May 14th and 15th. I hope you came out and shot to support the club. Prairie Bowmen 3Ds are always a lot of fun for everyone whether you are young, old, experienced, or a beginner. If you have never shot a 3D these events are a great opportunity for you to try it out. Next 3D will be June 11th and 12th.

Our next Target event is coming in July which will be a 900 Round. We will be looking for help to run this event.

If you have time this summer to help out with tournaments, workdays, JOAD and other event please do so help is always needed and appreciated.

Bowhunter Report

Roy Shelton filling in for Randy Meyer this month.

This is my first official writing for the Prairie Bowman newsletter. Just a little background on myself. I was a member of Prairie Bowman for approximately 10 to 12 years earlier and rejoined the club 4 years ago. In between I was very busy taking care of my 2 kids as they started other things in junior high and then High School.

Since rejoining the club and getting more involved both with assisting with 3d tournaments and other items within the club I have been able to understand more of what needs to happen to keep a club going of this magnitude. We do have very good people both on the board and other members that help keep this club moving. I will say it seems to be getting harder to find assistance within our own club to keep things going.

As I mentioned earlier I was very involved with my kids as they started getting involved in other extracurricular activities at their schools but now wish I would have at least stayed a member to support what happens at Prairie Bowman. It takes both time and finances to keep the club up and running.

I have also now seen how much money it takes yearly just to keep the club going for both the indoor and outdoor range. We very much appreciate all members of our wonderful club. For us to further our club I am asking for as much support as you can give us with any time for work days and coming out to our 3d's to shoot and have some fun with family, or friends. If you have not shot a 3d tournament before you will find that they are extremely fun and will make you a better hunter for when that deer comes under your stand. This is also a very good way to support your club financially. You can usually get through the course in around 3 hours. (Wow 3 hours of complete fun)

If you have any questions please feel free to contact myself or Randy Meyer at the phone numbers below. Thanks for reading and hope to see everyone at our next 3d shoot on June 11th and 12th at the outdoor range. Have a fantastic spring and summer.

Range Master Report

April 2 was the first work day for the outdoor range. All our efforts were placed on the upper range and policing the area next to our neighbors. New bow racks were placed on Target # 1, # 6, and # 9. Bow hooks were added to numerous bow racks. Four target butts were also rebuilt. During our mid morning break, it was nice socializing and enjoying Dunkin Donuts..... the only thing missing was coffee.

On our next work day, hopefully, we can finish the upper range.

Let's give a **BIG Thank You** to **John Oswald, Rodney Lange**, new member **Patrick Ducey, Clint Burge, Doug Friendt, Gaylen Rogers** and **Wayne Janssen**.

Also a big thank you to Gaylen Rogers for helping me mow the range for the May 3D shoot.

Our next work day at the outdoor range is MAY 21, 2016

Time 8:00 AM till Noon or there about.

Events

JOAD / AAA

We have about twenty people taking part in our Tuesday night JOAD sessions. Things are going pretty well but we can always use more help. Some of the shooters are new to archery and need some instruction to help them be successful. If you have any time on Tuesday nights that you could come down and instruct it would be greatly appreciated. You don't have to come every night, even once in a while would be great.

The current session will end June 14, 2016 but the next session will begin July 12, 2016. The sessions run from 6:00 P.M. until 7:00 P.M. and again from 7:30 P.M. until 8:30 P.M.

We hope Chad will be able to come back to the program. He is sorely missed.
