EXPERIENCE

CDA Informatica Full-Stack Developer July 17th, 2023 to date.

- Designed, developed, and maintained UI libraries in React to ensure a consistent user experience across multiple applications.
- Implemented and optimized React-based frontends, deploying them across different environments.
- Developed and maintained APIs and Backend for Frontend (BFF) to integrate various banking services, improving system communication using NestJs & .Net

Digital House Front-End Professor June 1st, 2023 to October 1st, 2023

- Taught classes on the React ecosystem, covering technologies like TypeScript, React Query, and Redux.
- Answered student questions and provided guidance on best practices.
- Prepared and graded exams to assess student understanding and progress.

IT Rock Full-Stack Developer June 1st, 2022 to July 15th, 2023

- Developed various software solutions using Next.js, React, and React Native for frontend projects.
- Built and maintained backend services using Node.js and NestJS.
- Worked on a diverse range of projects, including benefits sites, university platforms, and a video game platform.

CODERHOUSE React and Backend Tutor June 1st, 2021 to June 31th, 2023

- Provided support and teaching for students of various skill levels in frontend and backend development technologies.
- Gathered and curated learning resources to enhance student understanding.
- Answered questions and offered guidance on best practices throughout the course.
- Reviewed and corrected student code, ensuring code quality and improvement.

Beyond Media Agency Front-End Developer May 1st, 2021 to May 31th, 2022

- Developed an internal platform to automate workflows such as reporting, pay slip delivery, and personnel management using React and Firebase.
- Implemented client-facing measurement tasks using Google Analytics, Google Tag Manager (GTM), and Looker Studio, among other tools.
