

# CALF REARING SYSTEM

## ACCELERERA-C

SWITCH ON LIFETIME PERFORMANCE IN COWS

### The faster and more efficient way to rear high performance calves

- Faster growth for less money
- Easy-to-use and flexible system
- Optimises milk and solid feed intakes

# AXCELERA-C

SWITCH ON LIFETIME PERFORMANCE IN COWS

## The world's first accelerator for calves

Axcelera-C is a faster and more efficient way of optimising the lifetime performance of calves. Its unique **40% lactose formulation** means calves recognise it as 'milk' and eat it from 4 days – up to 3 weeks earlier than a starter feed.

- Calves eat from day 4
- More energy for health & growth
- Accelerates rumen development
- Reduces growth check at weaning
- Enables earlier weaning

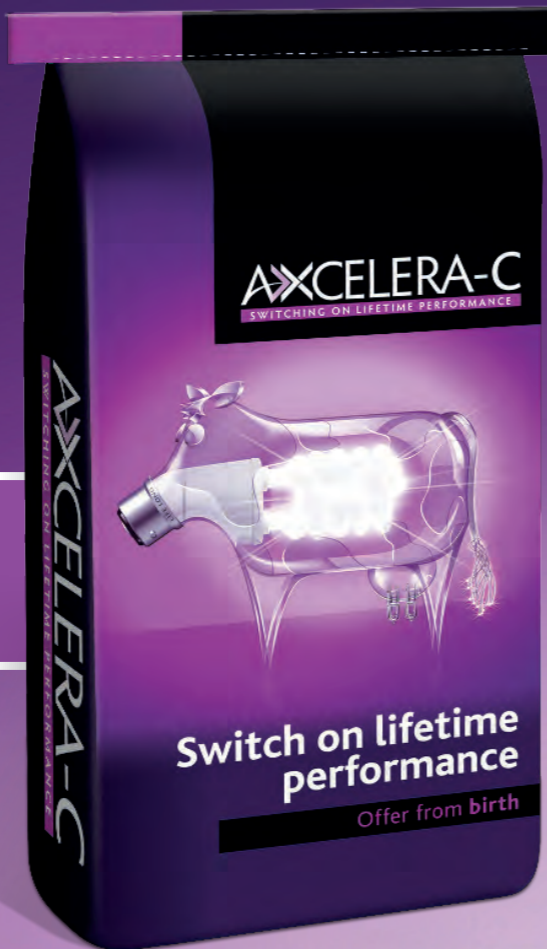

Easy to use:  
Use in addition to liquid milk from day 4 until weaning.

**40%  
LACTOSE**

### TO OPTIMISE INTAKES AND PERFORMANCE

- Offer fresh Axcelera-C every day
- Offer clean fresh water and clean straw
- Offer Axcelera-C at suckling height for maximum intakes up to day 14
- Wean calves @ 1.5kg daily dry matter intake (not age, size or weight)
- Measure calf growth and performance at least 30 days after weaning

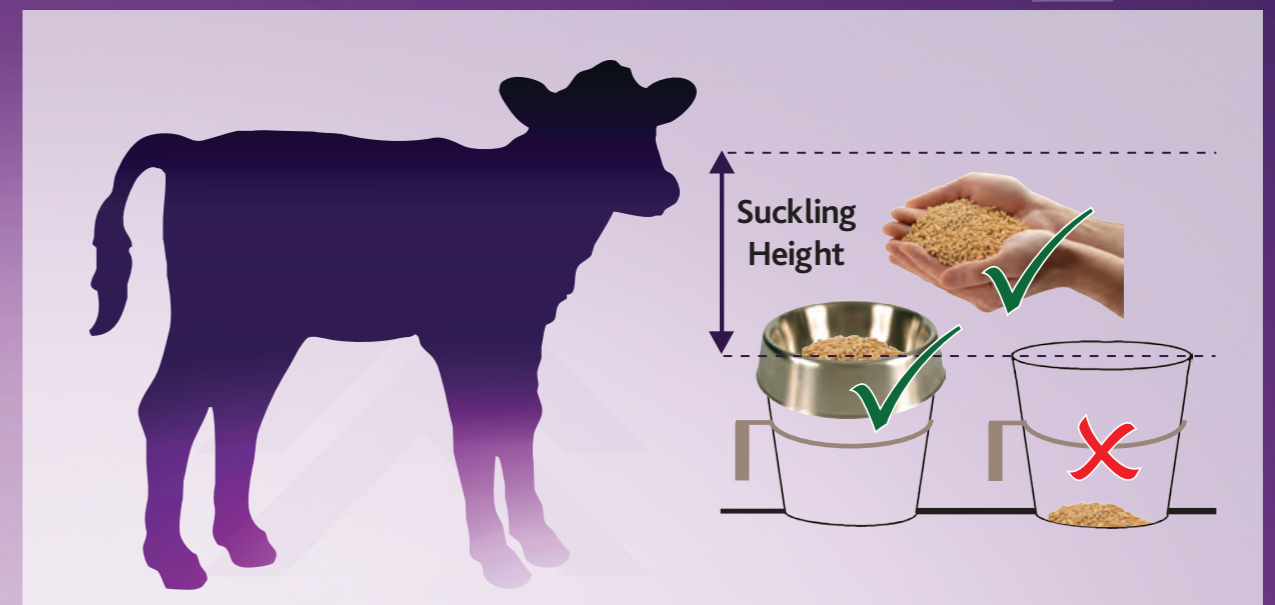

## CONVENTIONAL PROTOCOL

- Wean @ 1.5kg dry matter intake (not age, size or weight)
- Weigh calf growth and performance 30 days after weaning

Action	Days	Milk Replacer	Axcelera-C	Starter Feed
START Axcelera-C	4 - 25	Unchanged liquid milk programme	Ad-lib New each day	0.0
START Starter Feed & Axcelera-C Blend	25 - Weaning	Maximum 8 litres/day	20%	80%
WEAN	1.5kg Dry Matter Intake	0	0	0

## FOR BEST RESULTS

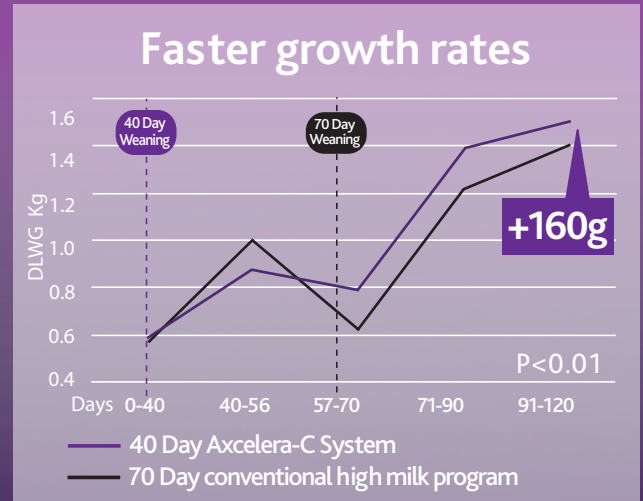

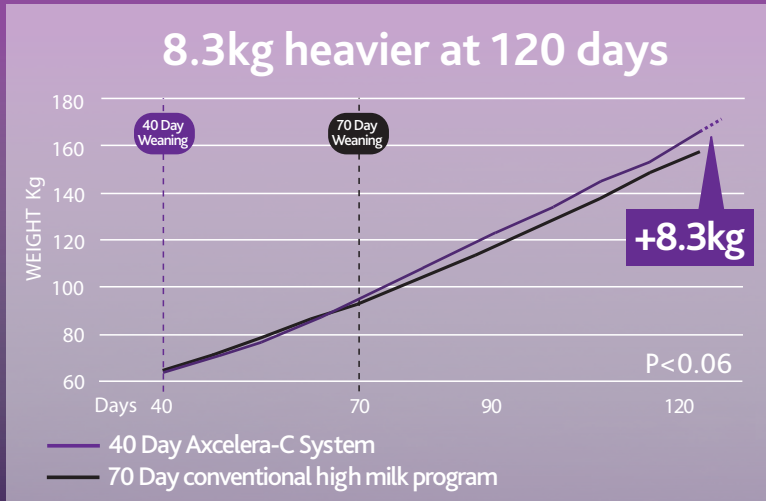

- Offer fresh Axcelera-C every day
- Fresh water and clean straw should always be available
- In week 1 - offer Axcelera-C to calves at suckling height

# CALF REARING SYSTEM

## FASTER GROWING CALVES BY FEEDING LESS MILK\*

40 day Axcelera-C Calf Rearing System outperforms conventional high milk program

\*Data IRTA 2017. 40 day Axcelera-C system: 26kg of CMR & 14.2 kg of Axcelera-C per calf. 70 day program: 45kg of CMR per calf.

## EASY-TO-USE & FLEXIBLE SYSTEMS

Choose the Axcelera-C system that matches your objectives

**SAVE  
£25  
A CALF**

### 70 DAY MILK SYSTEM

Days	Axcelera Milk (g/day)	Axcelera-C	Starter Feed
1-7	500	Ad-lib	No
8-14	625	Fresh Daily	
15-42	875	20%	80%
43-56	625	20%	80%
57-70	375	20%	80%

- 125g/l
- Twice a day feeding

**Total 46.4kg + 8.3kg = 54.7kg**

- Uses more milk & labour
- Slower throughput of calves

### 40 DAY MILK SYSTEM

Days	Axcelera Milk (g/day)	Axcelera-C	Starter Feed
1-7	500	Ad-lib	No
8-14	625	Fresh Daily	
15-23	875	30%	70%
24-28	750	30%	70%
29-34	625	30%	70%
35-38	500	30%	70%
39-40	375	30%	70%
41-50	0	30%	70%

**Total 26.0kg + 14.2kg = 40.2kg**

- Save money\* – uses 14kg less milk/Axcelera-C
- Easier – Save time and labour
