

## What is Bridge?

Bridge is a digital portal designed for Facilitators to manage their programmes. After onboarding, you can subscribe to a programme to begin.

When you're ready, you can add members, release digital modules and keep track of their progress.

## Monthly Subscription

As a Facilitator, you gain access to the Vantage Pornography Recovery programme management functionality and features of Bridge for a monthly subscription of R600.

## Digital Workbooks

Provide member access to the 11-module digital workbook set for a one-time fee of R300 per member.

Each workbook can be released via Bridge to members at your discretion and will be secured with a traceable digital stamp to verify their access to the programme.

## Funding Model

Facilitators have the option to collect a monthly fee from members for participation in the programme. This contribution helps support their efforts in serving the community.

Project Exodus offers sponsorships upon request, which are evaluated individually based on the circumstances.
