PROFESSIONAL SUMMARY

Product Designer (UI/UX) with 2.5+ years of experience building SaaS platforms, admin dashboards, and mobile applications. Led end-to-end design for 15+ digital products across SaaS and ERP domains, focusing on usability, workflow optimization, and scalable design systems. Strong collaborator with engineers and stakeholders, experienced in research-driven and AI-assisted design workflows to ship production-ready features.

EXPERIENCE

Incipient Infotech   *Jan 25 - Present*
Product Designer | Graphic Designer   Ahmedabad, Ind

- Led end-to-end UI/UX design for 5+ SaaS products and 8+ admin panels, focusing on scalable workflows and role-based access patterns.
- Designed core user flows, wireframes, and interactive prototypes in Figma, reducing usability friction across key product journeys.
- Owned UI/UX delivery for assigned features and modules from problem definition to developer handoff.
- Partnered with 30+ engineers to ensure feasibility, consistency, and smooth design-to-development execution in Agile sprints.
- Applied UX research and usability testing to identify friction points and improve accessibility and engagement across multiple product features.

Cuneiform Consulting   *Oct'23 - Oct'24*
UI/UX Designer   Ahmedabad, Ind

- Designed UX solutions for SaaS dashboards and ERP systems, focusing on workflow efficiency and data-heavy interfaces.
- Conducted usability testing and iterative design improvements, contributing to an estimated 20% increase in user satisfaction.
- Worked closely with product managers and developers in Agile teams across 10+ projects to deliver production-ready solutions.

Codage Habitation   *Feb'23 - Aug'23*
Intern UI/UX Designer   Ahmedabad, Ind

- Created high-fidelity website and app mockups under senior designer mentorship.
- Applied UX principles and design research to support user-centered solutions.

EDUCATION

B.Tech in Computer Engineering – Indus University | GPA: 7.23   *2016 - 2020*
                                                                                                                  Ahmedabad, Ind

CERTIFICATES

User Experience Design   *Aug'22 - Jan'23*
Google   Coursera

- Gained a solid Design foundation through 150+ hour course in UX principles, research, and strategies, initiating my journey toward crafting intuitive, human-centered design solutions.

UX Design for AR/VR/MR/XR   *Aug'22 - Jan'23*
University of Michigen   Coursera

- Mastered principles of designing user-centric XR experiences, emphasizing spatial interfaces, sensory design, and prototyping to develop immersive, innovative solutions.

SKILLS
