

# 160-BA02PSF1

## Allen Bradley Drives – 160 SSC Variable Speed Drives

| Technical Specifications:       |                                  |
|---------------------------------|----------------------------------|
| Manufacturer                    | Rockwell Automation              |
| Brand                           | Allen-Bradley                    |
| Part Number/Catalog No.         | 160-BA02PSF1                     |
| Product Type                    | Variable Speed Drive             |
| Voltage Rating                  | 380-460V                         |
| Phase Input                     | 3                                |
| Current Rating                  | A02                              |
| Enclosure Type                  | Chassis Mount(External Heatsink) |
| Model Type                      | Analog Signal Follower           |
| Series                          | C                                |
| Max. Output Amps                | 1.7                              |
| Operational Input Voltage Range | 340-506V AC                      |
| Input Current                   | 2                                |
| Cooling Method                  | Convection                       |
| Dimensions (H,W,D)              | 6/3.15/6.51 in.                  |
| Weight                          | 2.07 lbs.                        |
