

# 1791-NDC

Allen Bradley PLC – 1791 Block I/O

## Technical Specifications:

|                         |                         |
|-------------------------|-------------------------|
| Part Number             | 1791-NDC                |
| Product Type            | Analog Block I/O Module |
| Inputs                  | 4                       |
| Input Type              | Analog                  |
| Outputs                 | 2                       |
| Output Type             | Current                 |
| Power Supply Voltage    | 24V DC                  |
| Update Rate per Channel | 108 ms                  |
| Power Dissipation       | 11.52 W max.            |
| Thermal Dissipation     | 39.28 BTU/hr. max.      |
| Current                 | 600 mA                  |
| Input Bandwidth         | 5 Hz                    |
