

# 4100-202

## Allen Bradley Drives – IMC S Class

| Technical Specifications: |                         |
|---------------------------|-------------------------|
| Manufacturer              | Rockwell Automation     |
| Brand                     | Allen-Bradley           |
| Part Number/Catalog No.   | 4100-202                |
| Product Type              | Basic Motion Controller |
| Platform                  | Stand Alone             |
| Packaging                 | Basic                   |
| Axes                      | 2                       |
| Standard Communication    | Serial Port             |
| Communication Options     | Serial Port             |
| Input Voltage             | 5V DC                   |
| Dedicated Discrete Inputs | 10                      |
| Resolution                | 16 bits                 |
| I/O Power Input           | 5-40V DC                |
