

# H-4050-P-H01AN

Allen Bradley Motors – H Series

| Technical Specifications:  |                       |
|----------------------------|-----------------------|
| Manufacturer               | Rockwell Automation   |
| Brand                      | Allen-Bradley         |
| Part Number/Catalog No.    | H-4050-P-H01AN        |
| Product Type               | Brushless Servo Motor |
| Series Designator          | Low Inertia           |
| Frame Size                 | 4050                  |
| Optical Encoder Line Count | 2000                  |
| Options                    | 90 VDC Brake          |
| Flange                     | NEMA56C               |
| Damping                    | .045 Nm/krpm          |
| Friction Torque            | .068 Nm               |
| Poles                      | 6                     |
