Career Objective

Passionate Full-Stack Developer dedicated to building scalable web applications, optimizing performance, and crafting seamless digital experiences with clean architecture and efficient problem-solving.

Technical Skills

Frontend: JavaScript, TypeScript, React.js, Next.js, Redux Toolkit, TanStack Query, Tailwind CSS, shadcn/ui
Backend: Node.js, NestJS, Express.js, MongoDB, Mongoose, PostgreSQL, Redis, JWT, Socket.IO
Cloud & DevOps: AWS EC2, AWS S3, Docker, Nginx, PM2, Dokploy, Vercel
Tools & Payments: Git, GitHub, VS Code, Postman, Cloudinary, Stripe, PayPal, SSLCommerz

Experience

Junior Full-Stack Developer

May 2025 – Present

SparkTech Agency (Betopia Group)

- Architected and deployed full-stack web applications using Next.js, NestJS, Express.js, Docker, Nginx, and AWS EC2.
- Implemented secure payment pipelines (PayPal, Stripe) and real-time backend updates via WebSockets.
- Managed microservices infrastructure utilizing PM2, Dokploy, PostgreSQL, Redis, and MongoDB databases.

Frontend Developer

Nov 2023 – Feb 2024

Mesh Projukti, Bangladesh

- Developed e-commerce platforms and internal web tools with Next.js, React, TypeScript, and Tailwind CSS.
- Built reusable UI components, managed global state via Redux Toolkit + RTK Query, and configured CI/CD pipelines.

Projects

Copyright Checker SaaS Platform **Live Demo**

- Built a multilingual SaaS platform leveraging RapidAPI services to analyze Instagram Reels for potential copyright risks.
- Integrated PayPal automated subscription payment webhooks, role-based dashboards, and multilingual SEO (English & German).
- **Tech Stack:** Next.js, Express.js, MongoDB, JWT, RTK Query, Redux, shadcn/ui, i18next, Tailwind CSS, PayPal.

Louisiana Aroma E-Commerce Platform **Live Demo**

- Engineered a full-stack fragrance e-commerce store with custom 3-perfume blending engine and dynamic admin CMS.
- Integrated PayPal checkout and Shippo shipping API with webhook-based order processing, Node Cache, and rate limiting.
- **Tech Stack:** Next.js, NestJS, MongoDB, TypeScript, Redux Toolkit, RTK Query, Tailwind CSS, PayPal, Shippo.

TrustPay Digital Wallet **Client** | **Server** | **Live Demo**

- Developed a secure digital wallet app supporting real-time peer-to-peer transaction updates via Socket.IO and JWT RBAC.
- **Tech Stack:** Next.js, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, JWT, Socket.IO.

Problem Solving

LeetCode: 200+ Solved (**Profile**) | **CodeWars:** **Profile** | **HackerRank & CodeWars:** 50+ Solved

Education

Bachelor of Management Studies (BMS) – Dhaka College *2026*

Higher Secondary Certificate (HSC) – Kabi Nazrul Government College *2020*

Secondary School Certificate (SSC) – Sobuj Biddya Pith High School *2018*

Professional Courses & Training

Complete Web Development (Batch 10) – Programming Hero *Jul 2024 – Jan 2025*

Programming Hero Level 2 (Batch 5) – Programming Hero *Completed Jan 2026*

Languages

Bangla (Native) | **English** (Comfortable) | **Hindi** (Speaking & Listening)
