EBCE Community Solar Program:
Information Session for Prospective Community Sponsors
Agenda

1. Welcome!

2. Community Solar Program Overview
   - Program Summary
   - Program Benefits & Structure
   - Eligibility

3. Sponsorship Overview
   - Sponsor’s role
   - Commitment Letter
   - Sponsorship Process & Timeline

4. Next Steps, Upcoming Events, & Resources
Welcome!

- Poll
- Intended audience for this presentation
- Access to slides
- Q&A at the end
Program Overview

- The CPUC in 2018 adopted Decision 18-06-027, creating the community solar program. The program promotes the development of renewable generation in communities historically left behind in clean infrastructure development. Pursuant to the Decision, EBCE may implement its own community solar programs in its service area.

- EBCE’s Community Solar program allows customers to receive **100% solar energy at a 20% discount** on their electric bills. The CPUC has allocated approximately 1.6 megawatts (MW) of program capacity to EBCE.

- The program requires a **community sponsor** of the project and will result in projects located within five miles of the community it serves.

Program Benefits

Benefits to Eligible Residential Customers:

• 100% local solar energy
• 20% electric bill discount on top of CARE or FERA discounts
• Contribute to growth of local solar

Benefits to Eligible Sponsors:

• 100% local solar energy (or up to 25% of project output)
• 20% electric bill discount
• May receive Marketing, Education & Outreach funds to educate and recruit customer subscribers
• Contribute to growth of local solar
Community-based organizations— including local nonprofits, schools, or public agencies – partner with solar project developers to sponsor projects on behalf of nearby residents within a Disadvantaged Community.

*Note:*
Projects may have more than one Sponsor. The Sponsor does not need to host the project on-site.
Eligibility

**Community (project location):** The solar project must be...
- Located in a Disadvantaged Community ("DAC"), and
- Within 5 miles of the customers’ community (defined according to its census tract borders)

**Customers:** Customers subscribed to the project must be...
- Located in a DAC that is within 5 miles of the solar project
- At least 50% of customer subscribers must be low-income

**Sponsors:** Organizations sponsoring the project must be...
- Non-profit, community-based organizations, local governments, or schools
- In order to be eligible for the 20% bill discount, sponsors must also be based in a DAC that is within 5 miles of the project and be an EBCE customer
A Note on Disadvantaged Communities (“DACs”)

What is a “DAC”?  
• For purposes of the program, DACs are defined geographically as the **25% highest-scoring census tracts in CalEnviroScreen 3.0**, a scoring methodology developed by CalEPA.  
• The CPUC defines DACs in the following way:
  • “Disadvantaged communities refers to the areas throughout California which most suffer from a combination of economic, health, and environmental burdens. These burdens include poverty, high unemployment, air and water pollution, presence of hazardous wastes as well as high incidence of asthma and heart disease.

Can I find a map of DACs?  
• Yes!  
  • CalEPA maintains a map at this website: https://oehha.ca.gov/calenviroscreen/sb535  
  • EBCE has developed this Google Maps-based tool for our service area: https://www.google.com/maps/d/u/0/edit?mid=1jC7HCRCop-xGM9wlgIYYX18Sdq9ENZDD&usp=sharing
(1) **Project Site:** Rooftop or ground-mounted solar, located in a DAC in EBCE’s service area.

(2) **Customer Subscribers:** EBCE customers, located in a DAC that is within EBCE’s service area; at least 50% of subscribers are low-income customers.

(3) **Community Sponsor:** School, located in a DAC in EBCE’s service area.
(1) **Project Site:** Rooftop and ground-mounted solar at a school, located in a DAC in EBCE’s service area.

(2) **Community Sponsor:** School, located in a DAC in EBCE’s service area, serving as site host.

(3) **Customer Subscribers:** EBCE customers, located in a DAC that is within 5 miles of the project site; at least 50% of subscribers are low-income customers.
Sponsor’s Role
Sponsor Role

• Help project developers and the community come together.
  • Identify community-suggested project sites
  • Work with EBCE to conduct outreach and create interest in subscribing to the project
  • Provide a Letter of Commitment
The CPUC requires that project developers obtain a letter of commitment from a project sponsor that includes:

- “Demonstration of substantial interest of community members in subscribing to project;  
- Estimated number of subscribers, with justification to ensure project is sized to likely demand;  
- A preliminary plan to conduct outreach and recruit subscribers (which may be conducted in conjunction with the developer and/or EBCE); and  
- Siting preferences, including community-suggested host sites, and verification that the site chosen for the bid is consistent with community preference.”

The sponsor provides the letter to the project developer, who includes it in their bid package to EBCE.
## Sponsorship Process & Timeline

### Before EBCE’s RFO
**August 17 - December 10**
- Partner with a solar project developer
- Begin thinking about potential project sites, outreach plans
- Provide solar project developer with Letter of Commitment

### RFO period
**September 13 - December 10**
- Solar project developer includes Letter of Commitment in bid package to EBCE
- EBCE selects projects through competitive process

### Project Selected
**February 2022**
- Begin outreach behalf of the community
- Once project is live and achieves required levels of low-income participation, subscribers begin receiving 20% bill discount
Next Steps, Upcoming Events, & Resources
Next Steps: Interested in sponsoring?

1. Begin connecting with solar project developers. EBCE is here to help!
   - Fill out our sponsor interest form and we will feature your organization on our website as a potential sponsor.
   - Attend “Community Sponsor/Developer Matchmaking Event” on September 28th.

2. Begin thinking about Letters of Commitment.
   - Attend the next information session on September 14th or send questions to EBCE.

3. Stay up to date.
   - Join our mailing list for the upcoming Community Solar Request for Offers here (check the box for “Solicitations and requests for proposals”)
Upcoming Events for Sponsors & Developers

- **September 14, 2021**: Sponsor Info Session II [Topic: Letters of Commitment]
- **September 24, 2021 at 2:00 p.m. PST**: RFO webinar
- **September 28, 2021**: “Matchmaking event” for Sponsors & Developers
- **October 12, 2021**: Sponsor Info Session III [Topic: TBD]
Questions?

• Please email sweaver@ebce.org and jross@ebce.org
