

LOCAL RENEWABLE ENERGY

Renewable 100 for Businesses

You have choices for your electricity supply

EBCE's new, 57.5 megawatt Scott Haggerty Wind Energy Center in Livermore is a major supply source for Renewable 100.

Overview

Businesses in the East Bay can choose between EBCE's Renewable 100, EBCE's Bright Choice, or they can return to PG&E for generation service. EBCE is committed to offering options to create the right value proposition for businesses that prioritize savings or lowering your carbon footprint. Either way, EBCE has you covered.

The benefits of buying renewable energy

Buying green power provides businesses a variety of environmental, economic, and stakeholder-relations benefits.

- **Zero carbon footprint**

Renewable 100 is sourced from 100% California wind and solar power, as verified by the California Energy Commission. Customers of Renewable 100 can zero-out their greenhouse gas footprint for electricity supply.

- **Participate in the green economy**

Green power purchases support the development of local renewable energy projects—like EBCE's Scott Haggerty Wind Energy Center in Livermore—which creates jobs, promotes resource diversity, and provides grid resilience.

- **Make your customers and employees happy**

Customers, especially in the Bay Area, increasingly want to patronize businesses that are doing their part for the environment. Leadership on renewable energy can improve employee morale, productivity, retention, and hiring. Studies show that people prefer to work for organizations with an environmentally-friendly reputation.

Getting the most from EBCE's Renewable 100

- **Join the EPA Green Power Partnership**

This is a free, national recognition program.

- **Get LEED points from US Green Building Council**

LEED is the leading green building certification program, and buying Renewable 100 can earn points toward certification.

- **Join the California Green Business Network**

Your business can become a Certified Green Business, and buying Renewable 100 demonstrates your commitment.

See next page for **Compare your energy options** chart.

Compare your energy options

	Renewable 100	Bright Choice	PG&E
RENEWABLE ENERGY CONTENT	 <p>100% ELIGIBLE RENEWABLE</p>	 <p>40% ELIGIBLE RENEWABLE</p>	 <p>31% ELIGIBLE RENEWABLE</p>
COST	1¢ per kWh more than PG&E	1% lower than PG&E	PG&E rates
ENERGY PROGRAMS/ INCENTIVES OFFERED	EBCE and PG&E	EBCE and PG&E	PG&E only

ELIGIBLE RENEWABLE						
 Solar	 Wind	 Biomass & Biowaste, Geothermal, and Small Hydroelectric	 Large Hydro	 Nuclear	 Natural Gas	 Other or Unspecified

Reviewing your electricity usage

EBCE's customer service representatives can review your electricity-usage history and provide an estimate of the cost difference between Bright Choice, Renewable 100, and PG&E service for your account. Our representatives are available to assist you Monday–Friday from 9:00AM–5:00PM (except holidays).

To enroll in Renewable 100, visit the EBCE website at ebce.org/change-my-plan or call 1-833-699-EBCE (3223).
