Iman Huseynli

Software developer

A highly motivated software engineer with 4 years of experience, continuously learning and evolving professionally. I thrive in the dynamic environment of software engineering, effectively overcoming challenges and finding solutions in projects. Strong communication skills allow me to collaborate effectively with team members and exchange ideas. Following new technologies through training and staying up-to-date with industry developments keeps me engaged and motivated. I am always eager to develop my problem-solving skills and learn new technologies, value teamwork and enjoy collaborating to achieve a common goals.

EXPERIENCE

2020 - 2021
Link&A MMC

Fullstack developer

I worked as a software engineer in a company that develops accounting applications. Within the scope of this task, I took part in the project of developing a new version of an existing accounting application by adapting it to current technologies. In the project, we used **Reactjs** on the frontend side and **.NET Core** on the backend side.

2021 -
Quavis A.Ş

Fullstack developer

At Quavis, I worked on projects in the field of aviation and queuematic. I also took an active role in ensuring the communication and management of our applications running on kiosks with some devices. We used technologies such as **Blazor**, **.NET Core**, **Javascript**, **WebSoket** in our projects.
