

Digital Intelligence UltraKits™

FORENSIC IMAGING KITS FOR FIELD OR LAB

UltraKits - The Backbone of Forensic Data Acquisition

Collecting evidence is a critical initial step in the forensic process. Digital Intelligence UltraKits contain imaging tools necessary for efficient and accurate field or lab data collection. Three base models of UltraKits are offered. Each is built around the new UltraKit v5 and include the most popular set of Ultra Block™ write blockers (SATA/IDE, USB 3, and PCIe) along with adapters, cables, multiple power supplies, and the Digital Intelligence Forensic Media Card Reader. Certain kits may include Tableau forensic imagers (TX1 or the new TD4). As needed, kits may be expanded to include products supporting SAS, FireWire, or small form-factor IDE storage device acquisitions. Digital Intelligence UltraKits include a protective hard case with a custom designed foam insert.

UltraKit v5 + TX1 Forensic Imager

The UltraKit v5 with TX1 combines three Digital Intelligence Ultra Blocks (SATA/IDE, USB 3 and PCIe) with the powerful TX1 Forensic Imager -- all packed securely in a rugged, travel-ready hard case.

UltraKit v5 with TX1 Imager shown with SAS, FireWire, and IDE drive options

Be prepared for the unexpected with this UltraKit. Whether you are acquiring evidence with the fast, network enabled TX1 or an Ultra Block with forensic imaging software, this kit has the tools necessary for just about any forensic collection task encountered. The UltraKit v5 with TX1 includes all necessary cables, multiple power supplies, modern SSD drive adapters, and the Digital Intelligence Forensic Card Reader. Upgrade options for SAS, FireWire, and small form factor IDE drives are available.

UltraKit v5 + TD4 Forensic Duplicator

UltraKit v5 with TD4 Imager

The UltraKit v5 with TD4 supports forensic acquisitions of SATA, IDE, USB, and PCIe based storage devices. The new Tableau TD4 delivers impressive forensic imaging performance and many features of the TX1 -- in a smaller product package. TD4's intuitive work flow and GUI based color touch-screen provide functions typically only available in higher priced imagers. The easy to use, straightforward TD4 is purpose built for forensic work. This kit includes three UltraBlock devices (SATA/IDE, USB, and PCIe), one TD4 imager, the Digital Intelligence Forensic Card Reader, SSD adapters (TDA7.2 M.2, microSATA, and DI m.2/mSATA), cables, and power supplies. Additional PCIe adapters plus upgrades for SAS, FireWire, and small form-factor IDE device acquisition are available.

UltraKit v5

Acquiring data from hard drives and storage devices using forensic bridges and imaging software is fast and secure with the UltraKit v5. This kit includes a set of three popular Ultra Blocks (SATA/IDE, USB 3, and PCIe SSD) along with all necessary cables, multiple Ultra Block power supplies, SSD drive adapters (TDA7-2 M.2, microSATA, DI m.2/mSATA), and the Digital Intelligence Forensic Media Card Reader. Additional PCIe adapters plus upgrades for SAS, FireWire, and small form-factor IDE device acquisition are available.

UltraKit v5

Add Imaging Capabilities with Optional Ultra Block Accessory Bundles

Digital Intelligence offers three optional bundles that will increase Ultra Kit capabilities. Each bundle contains the Ultra Block product, cables, and adapters that are required to image various SAS, FireWire, and small form-factor IDE drives. Contact Digital Intelligence at www.digitalintelligence.com for additional product and pricing information.

The table below shows standard (“S”) and optional (“O”) products that are included with each Digital Intelligence UltraKit. Please see the Digital Intelligence webstore product page for a complete list of items included in each UltraKit.

	Ultra Block IDE/SATA	Ultra Block PCIe	Ultra Block USB3	Ultra Block FireWire Bundle	Ultra Block SAS Bundle	DI Forensic Media Card Reader	TD4 Forensic Duplicator Kit	TX1 Forensic Imager Kit	PCIe SSD Drive Adapter Bundle	IDE Hard Drive Adapter Bundle	Ultra Block Power Supply	Duplicator Power Supply	Drive Signal & Power Cables	Custom Foam Travel Hard Case
UltraKit v5 + TX1	S	S	S	O	O	S		S	S	O	2x	1x	S	S
UltraKit v5 + TD4	S	S	S	O	O	S	S		O	O	2x	1x	S	S
UltraKit v5	S	S	S	O	O	S			O	O	2x	1x	S	S

S = Standard
O = Optional
