

Anti-COVID Air
Purification Systems
Reducing the risk
of infection in the
workplace

Keep your business going

Anti-viral filtration for your office

 Individually-tested H14 HEPA filters¹ capture more than **99.995%** of viruses, bacteria & other micro-organisms 

Optional **UV stage** for added safety against viruses and bacteria

Optional **activated-carbon** prefilter to eliminate **odors, ozone, NO₂ and VOCs**

Discreet, neutral design and **quiet operation** for unobtrusive protection

Low power consumption through optimized system and filter media design

The experts for your unique challenge

From HEPA upgrades to your HVAC system, air purification systems or real-time indoor air monitoring devices, MANN+HUMMEL is your development partner of choice for healthy air quality.

of Belgian, French and UK employees are worried about their health and safety at work because of COVID-19.²

of UK workers don't believe their employer will be able to guarantee their safety from coronavirus.²

The pressure is on to get your business back up to full speed as quickly as possible. But this can only be done safely.

Provide your team and visitors with virus-free air in your office.

With record falls in the financial markets and previously-successful business closing virtually overnight, the economic shock of COVID-19 will be felt for years to come. For the businesses that remain, the pressure is on to reopen and stay open to reverse the damage that COVID-19 pandemic has wreaked.

But this can only be done safely. An outbreak in your office could have a bigger impact on your business than the lockdown itself – in

both employee sickness and the negative publicity that is likely to remain long after coronavirus is a distant memory.

Demonstrate that you care about employee health by reducing the risk of COVID-19 circulation within your indoor environment. An effective air cleaning system will not only show you care for your team, but will better protect everyone in your building and ultimately reduce the risk to your business.

Learn more about our anti-COVID air purification systems 

OurAir SQ 2500 & TK 850

Anti-viral purified air, anywhere

OURAIR SQ 2500

For larger spaces up to 200 m² (per unit)

OurAir SQ 2500 is a **standalone air cleaning system** that can cope with the demands of an office environment. With a maximum air flow rate of 2,500 m³/h, OurAir SQ 2500 is suitable for use in large spaces. **Multiple units can also be stacked or placed across a space for extra large areas.** OurAir SQ 2500 is so effective it can even be used outside and semi-closed spaces.

OURAIR TK 850

For smaller spaces up to 70 m² (per unit)

OurAir TK 850 is a **portable air cleaner** with the flexibility that workplaces need. Wheel it from room to room or store it away easily. OurAir TK 850 can clean a space quickly and efficiently with a maximum air flow rate of 850 m³/h. Best of all, it packs this high performance into a **space-saving design just 75 cm tall.**

No retrofit, no fuss

Just a healthier, virus-free space

A long-term solution

Employees and visitors will still need protection from airborne contaminants long after COVID-19.

Both OurAir SQ 2500 and TK 850 provide effective defence against air pollution as well as viruses, bacteria and other micro-organisms.

Most offices are set-up to create a comfortable, pleasant environment for their occupants. That means the air conditioning system (if one is present at all) is targeted at cooling or warming the space, not protecting people from viruses and other harmful contaminants.

OurAir SQ 2500 and TK 850 from MANN+HUMMEL are all-in-one units that enable building owners to turn any indoor space into a virus-free indoor environment.

No retrofit or building works are required. **Simply plug 'n play and create a healthier space for your visitors and team.**

A NEW REALITY FOR YOUR BUSINESS

People were concerned about the air they were breathing even before a global pandemic hit. Now, it's at the forefront of their minds and will guide their actions for years to come.

Potential and current employees will no longer just judge your workplace on things like equipment, decor and location.

They will factor in how seriously you take their health too.

You've trained team members, installed hand sanitizing stations and set up one-way routes.

Make the difference and provide your employees and visitors with peace of mind by installing OurAir SQ 2500 or OurAir TK 850 for cleaner, virus-free air.

A filtration leader For almost 80 years

For more than three-quarters of a century MANN+HUMMEL has been finding new ways to separate the useful from the harmful.

Today, our 22,000-strong team of filter experts – more than 1,000 of which make up our R&D department – work together to make our world a cleaner place.

26 filters roll off our production lines every second of every day.

So you can trust us to protect your visitors, your team and your business.
