

(HOLLOW CONE NOZZLES) **RW / RX / RZ**

HYDRAULIC ATOMIZERS

RX/RZ series hydraulic nozzles deliver a very finely atomized hollow cone spray, even at low pressure values. They contain a precisely machined insert with narrow passages that can be easily disassembled for cleaning in case of obstruction. Clogging can be avoided placing a fine mesh strainer on the main manifold or using an individual filter.

RW hydraulic atomizers works in the same way, but the tip is locked with a welded nipple ZAA and a locknut VAA. The capacities of RW tip are the same of RX nozzle. To have the complete product code, just change "RX" with "RW".

CONNECTION

BSPT (**RX**), BSP (**RZ**), NPT (**RX**, **RZ**), tip with nipple and locknut (**RW**)

TYPICAL APPLICATIONS

Dust control, humidification, deodorant spray, disinfectant liquid spray, exhaust scrubbers

Spray section

Concave distribution

**RX****RZ (+VEF)****RW**

FILTRI FILETTATI VEF

We suggest to use a VEF threaded filter to protect the nozzle against clogging.
