1	Sunblock	Small tube, fragrance-free and biodegradable
1	Bandana	
1	Journal and writing utensils	A small field journal
1	Backpack	50 – 70 liters (Provided)

Purchasing equipment: consider supporting companies that are B-Corp certified, to support fair labor and environmental practices, such as Patagonia. In addition, please consider used equipment sources, such as Patagonia Worn Wear or Outdoor Gear Exchange in Burlington, VT.

Specialty Gear: We will provide all specialty equipment needed for your program, such as a carving knife, a compass, a life jacket, a hiking backpack, stuff sacks, etc. We will provide all group gear such as tents, canoes, cooking, and camping gear. In other words, please limit what you bring to what is on the list above!

Your packing list is designed for a wide range of weather scenarios, so be prepared to bring everything on the list to camp, but not necessarily use all of it. For example, if we have a very warm and dry week, we may leave rain gear and some of the warm clothes items in storage.
