

NEW FOR 2025!

AUTOBOX 1L

FOR SINGLE LANCE TUBE CLEANING

Now available with OR without Sentinel®, the AutoBox 1L is an automated tube cleaning system designed to make automation more accessible to asset owners and contractors at any level. It delivers reliable, efficient cleaning performance with a simple upgrade path to advanced Sentinel® software and sensor integration so you can start smart and scale when you're ready.

The AutoBox 1L Tractor features dual belt drives, providing greater torque for cleaning longer runs and vertical bundles, and an enhanced pneumatic control box with convenient clamp adjustment capabilities.
