PIPE CLEANING

**OPERATING WATERBLASTING EQUIPMENT
CAN BE POTENTIALLY HAZARDOUS.**
SEE PAGE 125 FOR IMPORTANT SAFETY INFORMATION

AUTOBOX ABX-500

The AutoBox ABX-500 is a hands-free hose tractor for pipe and vessel cleaning. This utility hose feeding system can be adapted for a wide range of applications to enable precision hose control and increased safety. The ABX-500 accommodates a wide range of hose sizes and passes couplings up to 1.75 in. (45 mm) O.D..

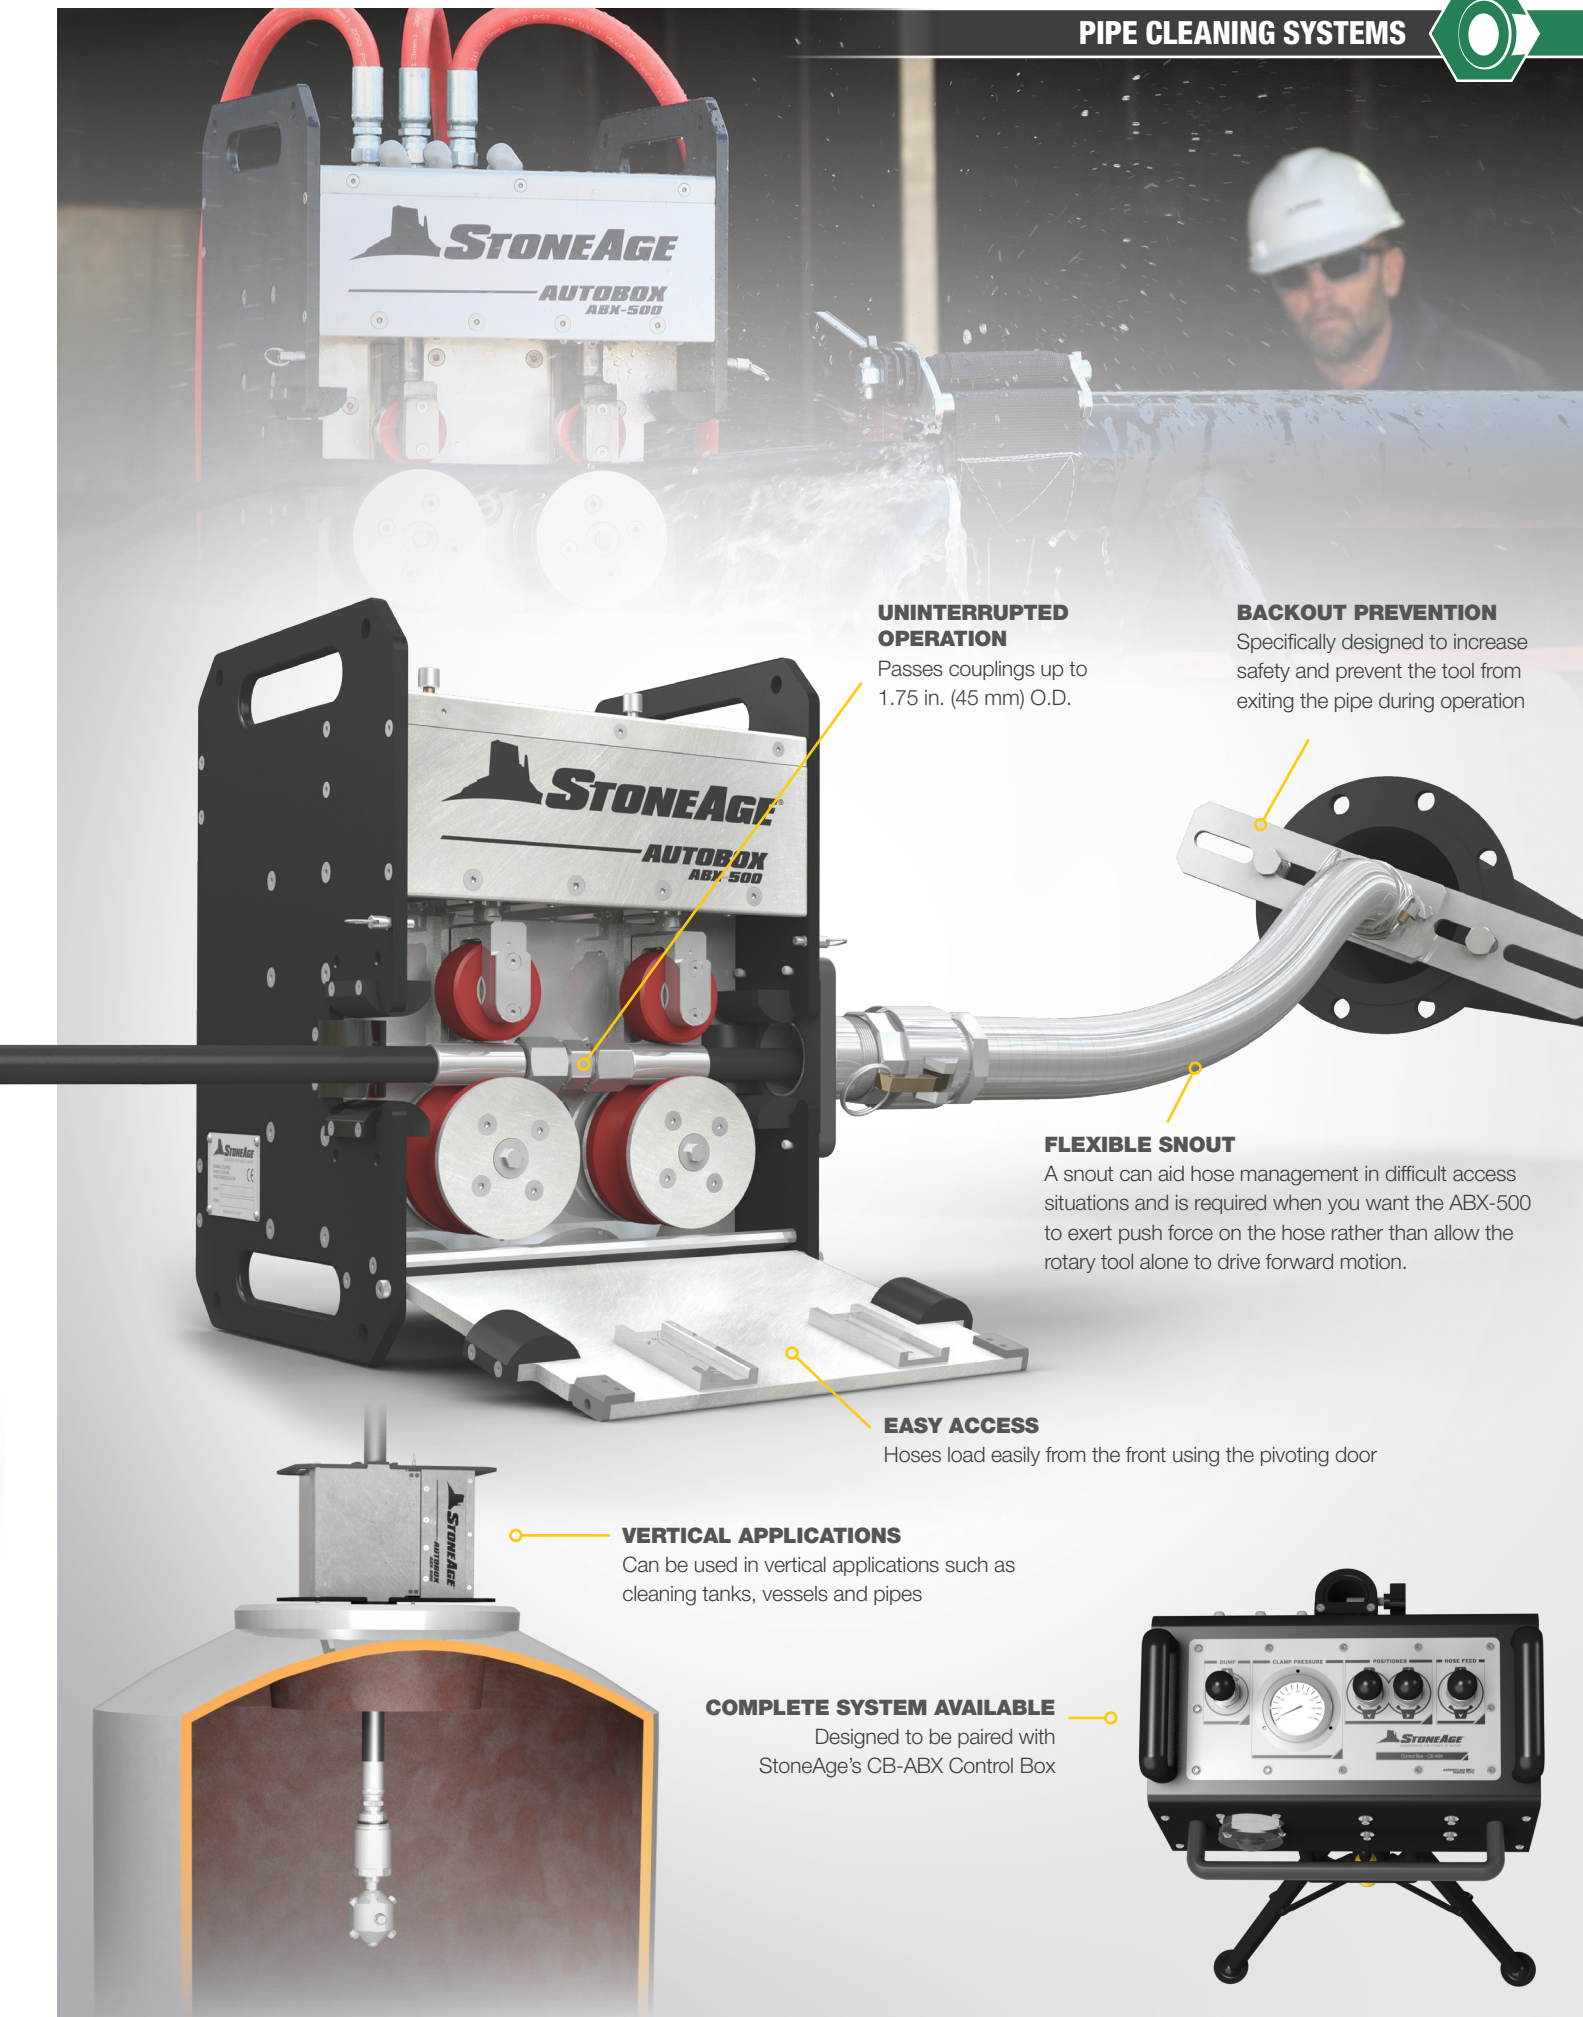

You can connect any StoneAge rotary cleaning nozzle or 3D tool to the hose to suit your application. The ABX-500 controls the forward and reverse speed of the rotary tool for consistent feed rate and dwell time.

FEATURES:

- Remote operation from outside of the blast zone reduces risk of injuries
- Hands-free cleaning minimizes operator fatigue and reduces downtime
- Remotely adjustable hose clamp pressure allows operator to adapt to changing conditions and minimize hose wear
- Forward and reverse feed rates can be independently adjusted for repeatable, consistent cleaning
- Capable of exerting up to 200 ft-lb of push/pull force on the hose when outfitted with snout accessory
- Passes hoses and couplings up to 1.75 in. (44.5 mm) O.D.
- Several mounting options available
- CE Certified

TOOL MODEL	PULLING FORCE	FEED RATE	HOSE SIZE	WEIGHT
ABX-500	Up to 200 lbs 90.7 kg	1–30 ft/min 0.3–9.1 m/min	0.56–1.75 in. 13–44 mm	90 lbs 41 kg

UNINTERRUPTED OPERATION

Passes couplings up to 1.75 in. (45 mm) O.D.

BACKOUT PREVENTION

Specifically designed to increase safety and prevent the tool from exiting the pipe during operation

FLEXIBLE SNOOT

A snout can aid hose management in difficult access situations and is required when you want the ABX-500 to exert push force on the hose rather than allow the rotary tool alone to drive forward motion.

EASY ACCESS

Hoses load easily from the front using the pivoting door

VERTICAL APPLICATIONS

Can be used in vertical applications such as cleaning tanks, vessels and pipes

COMPLETE SYSTEM AVAILABLE

Designed to be paired with StoneAge's CB-ABX Control Box
