

AUTOPACK 1L WITH COMPASS

**FOR VERTICAL, HORIZONTAL AND
ENCLOSED BUNDLE CLEANING**

**SAFER, FASTER,
MORE PRECISE**

single-lance tube cleaning

- The all-new AutoBox-1L single-lance, dual belt driven tractor produces higher speeds, more torque and increased power
- Radial indexing motion from a single connection point enables cleaning with minimal need for remounting
- Lightweight and compact for portability and quick set-up
- Uses Sentinel Technology that can also be used for your ABXS-3L

SENTINEL CE-CERTIFIED TECHNOLOGY

integrates with StoneAge's AutoBox-1L and Compass to automate exchanger tube cleaning

- Delivers 30% productivity gains and consistent results at every job
- Enables operators at any skill level to expertly perform through difficult job situations
- Captures performance data that helps reduce costs and improve asset utilization

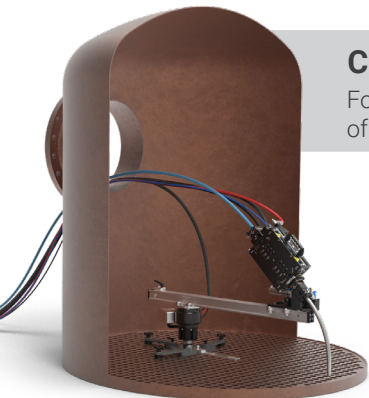

CURRENT SENTINEL OWNERS:

Use your existing Controller and Power Hub to maximize your Sentinel Investment.

ACCESSORIES

FOR AUTOPACK 1L WITH COMPASS

CONFINED SPACE KIT

For remotely-operated cleaning of **ENCLOSED TUBE BUNDLES**

- ▶ Adaptable spider mount attaches quickly and reduces the need to remount equipment
- ▶ Curved guide tube makes it easy to reach perimeter tubes against the dome wall

UNIVERSAL CAMERA

- ▶ Securely attaches to any automated equipment
- ▶ Designed to withstand the harshest of conditions
- ▶ Displays a clear, up-close view of the working surface on a monitor at the control box
- ▶ Allows an operator to work safely outside a confined space entry or tank cleaning application
