

NEW FOR 2025!

MODULAR HOSE CONTAINMENT

**HOSE MANAGEMENT FOR
HEAT EXCHANGER TUBE CLEANING**

The latest in hose containment technology, the Modular Hose Containment (MHC) system reduces workspace hazards and risks of injury due to unruly lances, slips, trips, and falls.

LESS CHAOS. MORE CLEANING.

MODULAR HOSE CONTAINMENT

- Stackable, lightweight, modular system designed to contain multiple lances (1 per drum)
- Compatible with all 1L and 3L tractors including ProDrive
- Less than 50 lbs (22.7 kg) for safe, single-operator handling
- Increases reliability of Sentinel® data and optimizes lifespan of lances
