

## PRESS RELEASE

16 November 2022

**Building on its DNA as an innovative French manufacturer, MANUVIT will be unveiling its brand new range of ergonomic stackers, the Astair®, at the All4Pack trade fair in Villepinte from 21 to 24 November.**

*Astair®*

Astair® with tray accessory

### **Free as a bird with Astair**

Suitable for use in industrial environments (food processing, pharmaceuticals, etc.) and tertiary environments, this compact 32kg electric lift stacker stands out for its lightness and manoeuvrability.

Thanks to its various accessories

- tray, spur and forks - for easy day-to-day handling of cartons, bins, reels, etc.

### **Quality and safety first and foremost**

Designed to last, this stacker, manufactured in our Normandy factory, is suitable for intensive use. Total control of our manufacturing process means we can guarantee quality products that are reliable and repairable for life. Guaranteed for three years, excluding wearing parts. It complies with Machinery Directive 2006/42/EC and CRAM R-367 recommendations. To ensure operator safety, an anti-tilt device prevents the stacker from tipping over if obstacles are encountered on the way down.

### **Technical specifications**

- Electric lift and manual movement
- Available in three mast heights: 1950, 1500 and 1200 mm
- Autonomy up to 10h for 10 cycles/h with a 60 kg load
- Equipped with polyurethane wheels, it offers excellent rolling properties on all types of flooring, including carpet and linoleum.
- Painted steel and aluminium finish

French company founded in 1981, specialising in the design and manufacture of standard and customised ergonomic handling solutions (stackers, pallet trucks, lifting tables, etc.) for drums, reels and bins.... Since 2004, MANUVIT has been part of the FIMM family-owned industrial group, which brings together several companies in the materials handling sector, including FIMM in Burgundy (89) and WHIPTRUCK in Normandy (61).
