A Jewel of French Automotive History on Display at the Club Delahaye Stand at Rétromobile 2025

Paris, January 4, 2025 – The Club Delahaye is honored to present, at Rétromobile 2025, an exceptional vehicle: the Delahaye 135MS #60233 roadster. This unique automobile, commissioned in 1939 by the Société des Automobiles Delahaye and bodied by Henri Chapron, embodies the elegance and craftsmanship of pre-war French automotive design. Originally intended for the Paris Motor Show, its destiny was disrupted by the outbreak of war. Shipped to the United States for the 1940 New York World's Fair, the car remained overseas for decades before returning to France.

Painstakingly restored in the 1990s and preserved by passionate collectors, this extraordinary piece will be showcased at the Club Delahaye stand throughout Rétromobile, from February 5 to 9, 2025, at the Parc des Expositions, Porte de Versailles, in Paris. As a member of the Association des Clubs de Marque (ACM), the Club Delahaye will be located in the grand ACM-dedicated area in Hall 3, stand 3B048—a must-visit spot for enthusiasts of prestigious automobiles.

ABOUT DELAHAYE CLUB

Founded in 1966, the Delahaye Club, a licensee of the Société des Automobiles Delahaye, aims to support the restoration of all types of vehicles built by the brand, to catalog all surviving productions, and to preserve the authenticity of the vehicles. Its 200 members are spread worldwide (Europe, United States, Australia, Asia). The Club offers the opportunity to participate in car shows, rallies, dinners, and other automotive events. Three newsletters are published throughout the year, and our members can benefit from our spare parts service and numerous technical advice. The Club also has extensive archives.
