

The Women's Motor Club at the 2025 Rétromobile Show in Paris

For the first time, the Women's Motor Club will participate in the Rétromobile Show, which will take place from February 5 to 9 at Paris Expo Porte de Versailles.

Founded in 2023, the Women's Motor Club brings together women passionate about automobiles, motorcycles, and aviation. Exhibiting at Rétromobile marks a significant milestone for the club as it celebrates its first anniversary. This event will be an opportunity to showcase its activities, engage with enthusiasts, and welcome new members.

"The Rétromobile Show is a fantastic opportunity to highlight the role of women in industries where they remain underrepresented. We are excited to share our passion and inspire more women to join the club,"
says Mylène Dorange, founder of the Women's Motor Club.

A Unique Gathering of Excellence and Automotive Passion

Throughout the week, Mylène Dorange and the members of the Women's Motor Club will be present to meet visitors and share their vision. The stand will also feature a rare piece: the Interceptor Mark 2, loaned by SIMA.

The presence of the Women's Motor Club at the Rétromobile Show is made possible thanks to the support of Mecanicus and Rétromobile, who share the goal of promoting innovative female-led initiatives in the world of exceptional vehicles.

Dates: February 5-9

Stand : 1 H 095

About the Women's Motor Club

Founded in 2023, the Women's Motor Club is an association dedicated to women passionate about automobiles, motorcycles, and aviation. Through various activities and events, it aims to encourage their presence in these traditionally male-dominated fields.
