Provence in a Syrup

Papilles & Provence is an artisanal company specializing in the production of authentic syrups made from fruits and plants of Provence. Founded with the desire to highlight natural and local flavors, we offer nothing but the true taste of fruits and plants. Our brand is committed to providing high-quality products, crafted with care and passion.

We believe in responsible and delicious consumption. That's why we source our ingredients from local producers and prioritize artisanal manufacturing methods, without artificial flavors, colorants, or preservatives.

Papilles & Provence is committed to offering products that are:

Rich in fruit

Made with minimal sugar

Free from added flavors and preservatives

100% natural and locally handcrafted

Papilles & Provence makes its big return to the 2025 Salon de l'Agriculture

Pernes-les-Fontaines, February 2, 2025 – Papilles & Provence is proud to announce its participation in the 2025 edition of the Salon International de l'Agriculture.

From Friday, February 28, to Sunday, March 2, we will be present at the Région Sud stand, where we will showcase the authentic flavors and local expertise of our region.

This must-attend event will be a fantastic opportunity for Papilles & Provence to present its exceptional products and introduce visitors to the rich gastronomic heritage of Provence. With tastings, meetings with producers, and interactive activities centered around regional specialties, the experience promises to be as delicious as it is enlightening.

"We are thrilled to return to the Salon de l'Agriculture, a major event that allows us to share our passion for Southern French products with a wide audience. It's a fantastic showcase for our terroir and a unique moment of conviviality with food lovers," says Elodie, representative of Papilles & Provence.

We extend our heartfelt thanks to the Région Sud for its support and for awarding us the "100% valeurs du Sud" label, which enables us to highlight the richness and authenticity of our Provençal products.
